Dear APA Team Member:

This is the **APA Official Team Manual**. It contains virtually everything you will need to know to maximize your enjoyment in League play. Not knowing the rules, in any sport, can cost you games and matches.

The entire team should make every effort to become thoroughly familiar with the contents of this manual. Be sure to take this manual with you to every League match. If you should lose or misplace it, contact your League Operator for another one. You may also find this manual online on our website, poolplayers.com.

APA League play will provide you with year-round competitive thrills and enjoyment. Your team will enjoy professional League Management, receive the best membership benefits and have the opportunity to participate in the largest and most rewarding championships offered. *The Equalizer*®, APA's handicap and scoring system, explained in this manual, makes it possible for players of all abilities to compete effectively. So, learn the rules and get lots of practice. Good luck and good shooting to you and your teammates.

Sincerely,

Terry Bell, Director
American Poolplayers Association

Every team member should read and become familiar with this manual. Keep the Team Manual with your team at all times. Make sure it stays with the team from session to session. By participating in the League, every member agrees to abide by the rules set forth in this Team Manual.

In the United States we do business as the American Poolplayers Association (APA) and in Canada we operate as the Canadian Poolplayers Association (CPA). This Manual applies to both APA and CPA League play. (For simplicity, references to "APA" in this Manual also mean CPA.)

With the exception of those situations specifically dealing with the *Ladies format*, all gender references are in the masculine, i.e., his, he, him. Obviously, ladies make up a significant portion of the sport's participants and are invited and welcome at all times.

The APA realizes that some of the rules in this manual may be new to you and does not imply these are the only rules. On the other hand, these rules were assembled by a committee of well-traveled professional players. The professionals use these rules when they play 8-Ball and 9-Ball, and these are the rules most commonly used in North America during competition.

Relax, enjoy yourself and play within the Spirit of the Rules as well as the written rule. It is impossible to cover every situation 100% with rules. Common sense must prevail. Teams that try to gain advantage by creating their own interpretations are subject to sportsmanship violations. Win at the table and not from the chair is a generality that promotes harmony, camaraderie and good times. That's what this League is all about.

DON'T READ THIS!!!

It's not for you.

If you're **NOT** interested in taking control of your future...it's not for you.

If you **DON'T** want to be your own boss...it's not for you.

If making a living in the sport you love **ISN'T** for you...then **DON'T VISIT US** at

poolplayers.com/franchise

The best opportunity you **WON'T take.**

THE GOVERNING BODY OF AMATEUR POOL®

Etiquette

To help make your evening of League play enjoyable, as well as enhance the enjoyment of those around you, please observe basic guidelines of etiquette. Treat your opponent as you would like to be treated. Pay attention to your match; be ready to shoot when it is your turn so you don't slow down the match. If you are expected to play the next match, have your cue ready, have enough quarters for the table (if needed) and begin your match as soon as the previous match is over. Limit coaching to one minute. Cheering for your teammate is part of the fun, but don't *cheer against* your opponent. A fun and competitive evening of League play is a goal that can be achieved by observing these guidelines and displaying good sportsmanship.

The League Structure

THE APA, CPA, JPA & APA OF CHINA

The APA was founded by two touring professionals, Terry Bell and Larry Hubbard. Their goal was to organize the sport of pool on the amateur level and to encourage the growth of the game. Since its inception in 1979 the APA has become recognized as *The Governing Body of Amateur Pool*. In 1989, the APA expanded to Canada, where we operate as the CPA. In 2007, the APA expanded to Japan, where we operate as the JPA. In 2015, the APA expanded to China where we operate as the APA of China. Most importantly, thanks to you, the League is over a quarter million members strong and still growing.

THE LEAGUE OPERATOR

The APA operates the League through a network of independent entrepreneurs called League Operators (LOs). In this manual, League Operator, Local League Office, Local League Officials, and Local League Management all mean the same thing. The League Operator is a professional administrator. The LO has full authority to make rulings concerning all aspects of the League. Please be aware that the APA stays in close contact with all LOs, keeps them up-to-date with all the latest developments and makes rulings on questions they may have. Because your League Operator is a trained professional, you can be confident the schedules, standings, handicap system, special events and all other League affairs will be handled promptly and accurately. Only an APA authorized League Operator may administer the League. Your League Operator may hire assistants and/or representatives to improve service to you.

BASIC TEAM LEAGUE ORGANIZATION

The Team - A team consists of a minimum of five players, although it is wise to have at least seven, and a maximum of eight. All team members bear the responsibility of verifying their teammates are APA members of legal age and are playing at skill levels that reflect their true ability. Each team will have a captain.

The Team Captain - The Team Captain is an essential part of the team and holds an important position. The Team Captain is the first person listed on the team roster. He helps with distribution of League information and bulletins and posts information at his home location. The Team Captain must also collect membership dues and weekly fees to be forwarded to Local League Management on a timely basis. He is responsible for having his team at the appointed place on time. He ensures that all rules concerning etiquette, sportsmanship and eligibility are observed. He makes sure proper scorekeeping procedures are followed. The Team Captain must have a phone. He represents the team and all communication with Local League Management is handled through the Team Captain. A team may elect a new Team Captain by a simple majority vote at any time. Local League Management must be notified immediately if a new Team Captain is elected.

The Division - A division consists of a number of teams (from 6 to 16) competing with each other in a set schedule. In some instances a division may start with only four teams, although a six-team division is the smallest division recommended.

The Division Representative - The APA recommends there be a Division Representative for every division in the League. The Division Representative (DR) may either be elected by the teams in his division or appointed by the League Operator. He is a person of integrity and is consistently active in the League. The DR is a member in good standing and enjoys the involvement this position offers. He helps make sure bulletins and other League information and materials get distributed to, and are understood by, the Team Captains in his division(s). He helps improve the League by passing information between the players and the Local League Office. He may also assist League Management with the Local Championships and other special events. The DR may serve on the Board of Governors. He is knowledgeable concerning League affairs and may be consulted by other members in the League. *Consulted* is the key word here because the DR does not have the authority to make rulings as an individual. However, it is a logical choice to call your DR if you have a protest or dispute—he may be able to help solve it. Remember, the DR has no more authority than any other member to make rulings unless he is acting as a member of the Board of Governors, and then only during an actual meeting of the Board. Remember, also, that his advice and interpretations are generally correct.

The League Structure

The Board of Governors - The APA recommends that a Board of Governors (BOG) exists in each League area to hear and rule on protests and disputes. In larger areas, a number of Boards may exist. A Board of Governors generally consists of a number of Division Representatives.

The business conducted by the BOG will normally concern protests, disputes, sportsmanship violations and other similar issues. The BOG, in addition to settling such issues, may also hand down penalties. Penalties may vary from loss of one point to a number of points. Penalties can include loss of eligibility, fines, or suspension of membership. The League Operator represents a higher authority than the BOG, but the APA has asked League Operators to uphold the findings of the BOG unless they are in violation of APA League rules or policies. The BOG may not conduct meetings without approval from Local Management. It is essential for the members of the Board to understand that the Board is there to assist the League Operator—not to monitor, criticize, or supervise. Members who cannot accept their role as just described may be removed from the Board.

The existence of a Board of Governors in your area is the best way to ensure the various situations that can and do occur get resolved as fairly as possible. Please accept their rulings and support your Board of Governors at all times.

The Handicap Advisory Committee - The League Operator may find it useful to establish a committee—Handicap Advisory Committee (HAC)—to assist him with handicap review. The HAC, if one exists, will normally consist of a number of highly skilled members who are familiar with APA League play. Certain members of the BOG may also be on the HAC. HAC members may be known to the membership or their identities may be kept confidential. Your HAC members are your friends unless you are an offender. The functions of the HAC may include reviewing new members and making recommendations concerning the assignment of skill levels to *known* highly skilled players. The HAC may help review the skill levels of all area players entering Higher Level Tournaments. The HAC may also periodically review the skill levels of players and help make rulings on protests concerning handicap and *sandbagging* violations.

Just as with the BOG, the League Operator is the final authority.

The League Structure

MEMBERSHIP BENEFITS

The American Poolplayers Association is the largest pocket billiards organization in the history of the sport. As a member of the APA, you will receive the best benefits ever made available to the amateur poolplayer. Some of them are as follows:

- Play wherever the League is active—almost every state.
- An official membership card.
- A membership benefits package mailed directly to your home.
- *The American Poolplayer* magazine—containing articles on the sport, tips from the pros, trick shots, and more—mailed directly to your home.
- Special member discounts on a variety of goods and services.

Transferability - Your membership is transferable to wherever an APA sanctioned League exists. There is no transfer fee. Upon arrival at your new home, simply notify Local League Management and ask them to contact your previous League Operator to transfer your records. If there is no APA sanctioned League at your new home, call the APA; every effort will be made to get one started. When you transfer to a new area, you must enter with your last skill level from your previous area. Memberships are nonrefundable and are not transferable from one person to another.

FEES

Annual APA Membership Dues - You must be a current member of the APA in order to participate in any APA event. Some events take place over a period of many months and current membership must be maintained in order to continue and remain eligible. Until further notice, your annual APA dues are \$25 U.S. (in Canada \$25 Can. plus applicable taxes). Annual memberships expire December 31. If you join after August 15, the annual membership dues will be prorated as follows:

The League Structure

- After August 15, you still pay \$25 to join, but you are able to renew for only \$15 the following year.
- If you are entitled to a \$15 renewal you must renew no later than March 1 or the first night you play in a Spring Session, whichever occurs first. After March 1, only full \$25 memberships are accepted.

You may sign up or renew online through poolplayers.com, or give your membership dues, your APA application, and/or renewal notice to your Local League Management who will forward them to the APA. Please allow six weeks for delivery of your membership card and other membership materials.

IMPORTANT — Make sure you fill out your membership application completely or correct any errors on the renewal notice. Some of your membership items will be mailed directly to your home address. If the APA does not have a complete and accurate address, you may not receive all of your benefits. Neither the APA nor your League Operator can be responsible for making them available at a later time.

Weekly Fee - Teams pay a weekly fee to participate in League activity. The actual amount charged in your area may vary, as is determined by your Local League Operator. **The entire weekly fee is due regardless of how many players are on the roster or how many players played during the match.**

Cash or Check? - The APA urges teams to make all League payments by check or money order. Local League Management cannot assume responsibility for cash.

CALENDAR

There are three sessions during a League year, beginning with the Summer, followed by the Fall, and ending with the Spring Session, followed by the World Pool Championships.

SCHEDULING

The APA has made a number of schedules available to your League Operator. Not only can the number of teams vary, but also the length of the sessions.

The League Structure

SCORING

Matches are played head-to-head: one team member plays a designated opponent from the other team. There are five individual matches played in each team match. In 8-Ball, every individual match is worth up to three points. A team can win a maximum of 15 points in a team match. The points are totaled over the course of a session. The teams with the most points are entitled to compete in post-season play, discussed later in this manual. The team with the most points is not the winner, but is *seeded* in the Playoffs.

TROPHIES AND AWARDS

Trophies, plaques or appropriate awards may be awarded to each individual on the Division Championship Team each session. Remember, the Division Champion is the team that wins the Playoffs, not the team with the most points at the end of the regular session.

In some areas, a team trophy may be awarded and kept on display at the Host Location. Annual or seasonal awards may also be given in other categories, such as, most valuable player, most improved player, sportsmanship, and so forth.

LOCAL BYLAWS

This Team Manual covers many of the situations that can and will occur during League play. There are some subjects that are covered by Local Bylaws, a document put together by your League Operator and/or Board of Governors with the approval of the APA. The Local Bylaws include subjects such as, the procedure for dropping off and picking up scoresheets, penalties for late scoresheets, procedures for registering teams for the next session, specific penalties for a number of disruptive violations, more specific information concerning etiquette and sportsmanship, procedures to be followed by your Board of Governors, awards policy, and inclement weather policy, just to name a few. Local Bylaws may also contradict portions of this manual, especially in the General Rules Section, but only with the approval of the APA. Make sure you are familiar with the Local Bylaws for your area.

OTHER FORMATS

In addition to the basic 8-Ball and 9-Ball team formats, the APA sanctions other formats such as Junior Divisions, Doubles Divisions, 3-Person Team Divisions, Ladies Divisions and Masters Divisions. Check with your Local League Office for information on the availability of these other formats in your area.

APA CHAMPIONSHIPS

A local League area must meet certain minimum team counts (see Higher Level Tournament Section) in order to qualify to send a team or a player to the championships. In the future, the APA may offer championships in other formats.

World Championships - The 8-Ball and 9-Ball World Championships, open to both gentlemen and ladies, are part of the APA World Pool Championships. Each year, in each division, a team will be crowned the World Champion. With the exception of a few rules pertaining to eligibility, the general rules, game rules, and the handicap system you use all year long are used in every round of the World Championships. The World Championships consist of two levels: the Local Level and the World Level. The World Championships begin as soon as possible after the Spring Session finishes. Remember, the League calendar begins with the Summer Session and finishes with the Spring Session, meaning the League year begins in June and finishes the following May. Because the World Championships consist of two levels, and because of the time required for the players to secure the best and least expensive travel arrangements, there will usually be about 60 days between the Local Level and the World Level.

*Division
Champions
advance to the
Local Level
of the APA
World Pool
Championships.*

- **The Local Level** - For the convenience of the general membership, the first few rounds of the World Championships are conducted locally. This Local Level of the World Championships (called a variety of names, such as: Local Team Championship, Tri-Annual Championship, "Your City" Metro Championship, etc.) is normally held in late May or early June of each year. Any team that wins a divisional title for any session during the current League year is eligible, provided eligibility requirements are met. Should a team repeat

as division winner during the same League year, the second place team will be granted eligibility. If there are ten divisions playing three sessions a year and they all play year-round, then there would be 30 teams eligible. In large League areas there may be Tri-Annual, Qualifier Cups, etc. to determine who advances. If this applies to your area it will be explained in the Local Bylaws.

The number of teams advanced from your area is based upon the total number of teams in your area. The more teams participating in your area, the more teams advance to the World Level. Thus, it is just as easy to advance from an area with 500 teams as it is to advance from an area with 100 teams.

- **The World Level** - Each year, approximately 60 days after the Local Level has been completed, the APA will conduct the World Championships. Every team that makes it to the World Level is already *in the money*. Exact prize money breakdown, precise tournament dates and sites, and other information is available through poolplayers.com, *The American Poolplayer* magazine, prominently displayed posters at League sites, or by contacting Local League Management or the APA.

Poolplayer Championships - The APA conducts the 8-Ball Classic and the 9-Ball Shootout each year. The 8-Ball Classic tournament is open only to current League members on an active 8-Ball team with at least 10 actual 8-Ball League match scores, and all 10 scores must have occurred within the last two years. The 9-Ball Shootout tournament is open only to current League members on an active 9-Ball team with at least 10 actual 9-Ball League match scores, and all 10 scores must have occurred within the last two years. Players enter with their present skill level for the event in which they are participating. The game rules are the same as those used during regular session play. For the convenience of all members, the 8-Ball Classic and the 9-Ball Shootout are divided into three levels: the Local Level, the Regional Level, and the Championship Level. The format at the Local Level is generally single elimination and at the Regional and Championship Levels, modified single elimination. At the Regional and Championship Levels there are five tiers in the 8-Ball Classic and three tiers in the 9-Ball Shootout. The 8-Ball Classic consists of the Blue Tier (SL2s and SL3s), the Yellow Tier (SL4s), the Red Tier (SL5s), the Orange Tier (SL6s), and the Purple Tier (SL7s). The 9-Ball Shootout consists of the Green Tier (SL1s, SL2s and SL3s), the White Tier (SL4s and SL5s), and the Black Tier (SL6s, SL7s, SL8s and SL9s). Winners from each tier advance from the Regional Level to the Championship Level. At the Championship Level there will be five champions (one from each tier) in the

The League Structure

8-Ball Classic and three champions (one from each tier) in the 9-Ball Shootout. There is a minimum entry fee at the Local Level; after you qualify, there are no additional entry fees at the Regional or Championship Levels. More information concerning the 8-Ball Classic and the 9-Ball Shootout is available through poolplayers.com, *The American Poolplayer* magazine, League posters, Local League Management or the APA.

- **The Local Level or Local Qualifier** - The Local Level consists of any number of *Local Qualifier* tournaments or *Boards* that take place within the designated qualifying window. Contact your Local League Office for specific times to qualify in your area. The winner of each Local Qualifier is qualified to advance to the Regional Level. Since there are only eight players in a Local Qualifier and the Local Qualifiers generally take place in a single afternoon or evening, this means you are an *instant winner* after winning only three matches.

Players of all abilities have an excellent opportunity to win a Local Qualifier because the Host Location or Tournament Director may designate the Local Qualifiers for certain skill levels only. Some Local Qualifiers may be open to everyone, while other Local Qualifiers might be open to SL2s and SL3s only. This virtually guarantees that players of all abilities will advance to the Regional tournaments. Local Qualifiers may also be conducted for gentlemen only, ladies only, or *open* (meaning any combination of gentlemen and ladies).

Eligibility information for the 8-Ball Classic and the 9-Ball Shootout is explained in detail on the entry form portion of the tournament board used for Local Qualifiers. If you or your teammates want to enter and are not receiving information concerning Local Qualifiers, contact your Local League Office.

- **The Regional Level** - The next few rounds of the 8-Ball Classic and the 9-Ball Shootout are conducted at a number of regional sites throughout the country. Participants have the opportunity to advance to the Championship Level while being seeded with players at or near their own skill level. Most of the Regionals advance quite a few players to the Championship Level, thus all skill levels are usually represented at the Championship Level. Plaques are awarded to those who advance. Regionals are usually conducted during October and March.

The League Structure

- **The Championship Level** - Approximately 6-8 weeks after the March Regional events, the APA conducts the final rounds of the 8-Ball Classic and the 9-Ball Shootout.

Every participant plays for a combination of prize money and merchandise, and enjoys excellent playing conditions and paid accommodations. Look for additional details on poolplayers.com.

SECTION 2

General Rules

The general rules are those rules that govern regular weekly play. These rules cover many of the possible situations that inevitably occur during regular weekly play, except those pertaining to the game rules. Game rules are covered later in this manual. Areas covered here include: forfeits, protest and dispute procedures, grace period, membership requirements, how matches are started, who pays for the tables, sportsmanship issues and many more.

All the rules in this section are the *Official APA Rules*. They are the result of years of accumulated experience and input from players, Boards and League Operators. Fairness to players of all abilities was the prime consideration for adoption or rejection of a rule or procedure. In consultation with the APA some variances may be allowed, but such variances must be approved by the APA and included in your Local Bylaws to avoid confusion. The general rules are as follows:

1. NO GAMBLING

2. AGE REQUIREMENTS

You must be at least **18 years of age** to participate. Some League areas may be restricted to **21 years of age** as State, Province and Local Laws require. Check your Local Bylaws for age requirements in your APA area. Teams playing underage players may face penalties. **Exception:** Junior Leagues, if available, have no minimum age restriction except where local ordinances apply.

3. BYES

Some divisions may start with a bye (**a bye is a missing team**), or a bye may appear in a division because a team dropped out. Concerning scheduling and byes:

- a. If a division begins with a bye, League Management has up to the fourth week of play to fill the slot, and make-up matches may be scheduled.

- b. If a team drops out of a division, causing a bye to exist, League Management has two weeks to fill the slot. The incoming team will assume the points of the team that dropped out.
- c. There will never be two byes in a schedule because a new schedule will be issued.

Example: If a second bye should appear in a 10-team schedule, League Management will issue an 8-team schedule with no byes. The new schedule may cause teams to have a different home and away pattern and different match-ups with other teams in the division, so be alert to this possibility.

*8 points
will be
awarded
for all
byes.*

- d. How byes are scored - Assuming no replacement team is found, eight points will be awarded for all byes.

4. FORFEITS

- a. A team match will result in a **forfeit if your player is not at the table and ready to begin within 15 minutes of the appointed time**. *Real Time*, as opposed to *Bar Time*, is the official League time. Individual forfeits will be worth two points during regular League play and three points in playoffs/Higher Level Tournaments.
- b. Where new teams or new divisions are involved, there shall be some leniency. **You joined to play—not to receive forfeits**. Occasionally a new team misreads or misunderstands the schedule.
- c. A team may begin play with one player present. Upon completion of each individual match, the team must have another player available for play or the remaining match(es) will be forfeited. In other words, **PLAY MUST BE CONTINUOUS ONCE BEGUN**.
- d. If both Team Captains agree, a team match may be rescheduled for a different time (forfeit rule not in effect). The League Operator must be notified and give approval. All makeup matches must be played using current skill levels.

- e. If your opponent does not have a player present for the next individual match, then two forfeit points are awarded to your team. These points are awarded only if your team has a player present for the match in question. In the event neither team can field a player for the match, the points will not be awarded to either team. For example, if one team can field four players and the opposing team can only field three players, only two forfeit points are awarded. The name of the player **present**, his team number and his player number must be written down on the scoresheet and *forfeit* written in place of the opponent's name. The player chosen to receive the forfeit points must not cause the team to violate the **23-Rule**.
- f. If a team finds it necessary to forfeit, **the forfeit(s) must be the last match(es)**.

Example: If a team knows they will only have four players available for a match, they cannot forfeit the second match because the opposing team put up their *best player*. Besides, there is always a chance the fifth player might show up.

- g. **Both teams must still pay full weekly fees.**
- h. **Deliberate forfeits will not be tolerated.** If the League Operator/ Board of Governors is satisfied that the receiving team conspired to receive deliberate forfeit points, then the points would not be counted. Depending upon the situation and evidence, either or both teams would be subject to other penalties.

5. PROTESTS AND DISPUTES

In general, all protests, disputes and complaints to Local League Management **must be made by your Team Captain**. Make sure you go through your Team Captain. Penalty points may be assessed to teams who disrupt League operation by making pointless protest calls to the League Operator or the Local League Office. **Most protests and disputes should be settled immediately through compromise, common sense, and by referring to this manual.** Your Local League Office will publish its hours of operation (typically 10:00 a.m. - 6:00 p.m., Monday - Friday) and may be unavailable to make rulings if your League time is after hours, so solve as many situations as you can on the spot.

The procedure for settling disputes will be as follows:

- a. If a dispute between two teams cannot be resolved by existing rules, the two players and Team Captains will first attempt to resolve the issue by **negotiation and compromise**.
- b. Remember, the League Operator and the BOG (normally not present at the time of dispute) cannot effectively rule on a *good hit/bad hit* situation or other similar occurrences. Therefore, it is up to the two players and the two Team Captains involved to make every effort to settle the issue immediately. Frequently, disputes are settled by replaying the game or the flip of a coin. It is essential all parties concerned display good sportsmanship and conduct during the dispute itself. Poor sportsmanship or abusive behavior may cause the team that wins the dispute to face more serious consequences when the Board rules on the sportsmanship issues. Teams consistently involved in disputes may incur penalties ranging from point deductions to suspension or termination.

*Disagreements
should be
handled through
compromise,
common sense
and courtesy.*

In general, disputed *flip of a coin* type game rulings would favor the **shooting team** rather than the **sitting team**. The APA wishes that games be decided by shooting rather than by reading. Only a clear violation would go against the shooting team.

Example: The shooting player makes a shot where the hit (good or bad) is questionable and both teams feel their ruling is correct. **The call should go to the shooter.**

In the example above, the sitting team should have protected itself by stopping the game prior to the shot and getting a third party, not on either team, to watch the shot. Now the sitting team is on an even level with the shooting team and the shooter must be very careful with the shot. It is usually easy to see when your opponent is going to face a close situation. Your opponent is required to stop if you want the shot watched. If a third party is asked to watch a shot, the call will stand and cannot be disputed.

- c. **Once both teams have agreed to replay a game, no protest may be filed at a later time concerning the game issues.** You cannot agree to a situation with the idea that if you win, it's okay; and if you lose, you are going to protest anyway.
- d. **In the event the Team Captains cannot settle the dispute,** they will both submit a **written protest to the League Operator.** This protest will describe the circumstances involved and will be submitted along with a **\$25 protest fee from each team.** The League Operator may rule on the protest/dispute or may pass it along to the Board of Governors. **The decision of the League Operator or the Board is final and the loser of the protest will forfeit their \$25. The winner is reimbursed.** You will lose your right to protest if you refuse to continue the match or make no attempt to resolve the issue through **negotiation and/or compromise.**
- e. Once the League Office has received your scoresheet, it is too late to protest. Know the rules and review the match before sending in your scoresheet.

6. CONCERNING TEAMS THAT DROP OUT

Because it is particularly disruptive to the League for teams to drop out during the session, the following policy will be observed. A team that drops out during a session **will be required to pay** all past dues, the balance of all dues they would have owed had they completed the session, plus two weeks fees deposit (which will be applied to the final weeks of the session) before they would be allowed to rejoin the League. A player who was on such a team and who wishes to rejoin the League as an individual must first pay his share before being reinstated.

7. ORDER OF PLAY & HOW IT IS DECIDED WHO PLAYS FIRST

Team Captains flip a coin to decide who must declare the first player. Winner of the toss has the choice of declaring first or having the opposing Team Captain choose first. Whoever chooses first for the first match chooses second for the second match, first for the third match, etc. Once both teams in a match have declared a player, the players cannot be changed unless the 23-Rule is in jeopardy.

8. VERIFICATION OF IDENTITY

Your opponent has every right to request proof of identity from you and your teammates. **Positive identification is a picture I.D.; for example, a photograph on a valid driver's license.** If identification is not adequate, play the match and file a protest. Give your League Office plenty of time to settle the matter. The penalty for falsifying a player on your roster will be suspension and/or disqualification of each member of the team(s) determined to be involved in the falsification.

9. WHO PAYS FOR THE GAMES

Although it can be accomplished in more than one way, **both teams** shall pay equally for table use during the match. *Loser pays* is not acceptable. **This rule cannot be altered by Local Bylaws or Local League Management.**

- a. **On coin-operated tables** - A quantity of quarters could be jointly purchased by both teams and placed as conveniently as possible near the coin mechanism. Both teams could then use the quarters for the match. More could be jointly purchased if the initial amount runs out. If there are any quarters left when the match is over, they would be distributed equally to each team.

The table cost is shared equally.

- b. **On time tables** - On tables where the proprietor charges by the hour, the total charge would be divided between the two teams.

10. SPLITTING MATCHES

Normally, a team match is played on only one table. Occasionally, lengthy matches make it logical to put a second table in action, if one is available. Therefore, if the fourth match has not started by **official League start time plus two hours**, then it would begin on the second table. The fifth match would then be played on whichever table becomes available first. A team is subject to penalty if an *available* table is made *unavailable* for a **splitting matches** situation and it is later determined they, in any way, caused it to be *unavailable* or resisted using the second table. **Splitting matches** is waived if both teams agree to continue on one table.

11. COACHING

As is the case in many sports, coaching is both logical and reasonable. Coaching gives the more advanced players a chance to help the newer players with their game under competitive circumstances. Coaching is defined as giving advice to your teammate during his turn at the table. **Some examples of what is considered coaching** are: giving advice as to which ball to shoot (except in 9-Ball), where to leave the cue ball, whether to shoot soft or hard, or whether or not to use *english*. **These types of comments are considered coaching because they relate to the game situation.**

Some examples of what is *not* considered coaching are: telling a player which category of balls is his, reminding him to chalk up or to mark the pocket when shooting the 8-ball, giving advice before the break, or telling a player a foul has occurred. Comments such as “good hit” or “nice shot” or answering a player’s question concerning rules is not considered coaching. Any comments made to a player when it is not his turn at the table are not considered coaching.

Obviously, judgments will have to be made. Play it safe—when your opponent finishes his turn, do not continue talking to your teammates. Go to the table to begin your turn. Be courteous to your opponent. **Observe the following coaching guidelines:**

- a. Any member of the team can be the coach. The coach does not have to be designated until a time-out is called, and a different coach can be designated for each time-out.
- b. So that coaching does not cause excessive delays in the progress of a match, players with skill levels of 4 and up may receive one coaching per game, and players with skill levels of 2 or 3 and *nonrated* players may receive two coachings per game. Mark the coachings (also called time-outs) with a “T” on the scoresheet to avoid confusion. In any event, **taking too many coachings will not be considered a violation of the rules, although consistent attempts to take too many coachings may result in a sportsmanship violation.** It is up to you to notify your opponent if he is taking a coaching he does not have coming. Disagreements are handled just as any other protest or dispute.

- c. **Any member** of the shooting team **may call** for a *time-out*. **In order to avoid confusion, say it loudly and clearly enough for all to hear.**
- d. During his turn at the table, the shooter may discuss strategy only with the coach designated for that time-out. A shooter receiving advice regarding game strategy from a fellow player, besides his designated coach, has committed a foul. A coach may get a group consensus from the other players on his team and pass it on to the shooter, but only the designated coach may pass it on. **Coaching periods should not exceed one minute.** Repeated complaints against offenders could lead to penalties.
- e. Coaches may place the cue ball for a player in a *ball-in-hand* situation during a time-out. Coaches may not mark the playing surface of the table (see MARKING THE TABLE in the 8-Ball Game Rules Section), or guide the shooter’s cue during the execution of the shot. The coach must leave the playing area before the shooter attempts the shot.
- f. Avoid disputes. When your opponent’s turn is over, go to the table and begin your turn. Do not sit and talk with your teammates, because your opponent may think you are being coached.

12. ADDING/DROPPING PLAYERS

New players may be **added** to your roster at any time **during the first four weeks** of the session. For an added player to participate in a League match, the opposing Team Captain **must** be notified that you are adding or dropping a player before the team match begins. To add a player to your roster, simply write the word *add* and the player’s name (next to the other names) on your copy of the weekly scoresheet. **Gentlemen without a handicap (*nonrated*) will play their first match as a SL4; ladies will play their first match as a SL3.** If the new player participates in another APA League area or is an ex-League player, the Team Captain must contact the League Office in advance to obtain his most current skill level before allowing him to play. If you play him without doing so, be sure he plays at his most current skill level. If he plays at a lower rating, his match will be considered forfeited. Once a team has entered Higher Level Tournament play and it is discovered that a transfer player or an ex-League player was allowed to participate on the team during regular session play at a skill level

lower than his most current rating, the team is subject to disqualification, even if the player in question reestablished his rating by that time.

Players may, with approval from the League Office, be dropped at any time during the session and should be dropped if they become unreliable or cause problems in the League. To request that the League Office drop a player, simply draw a line through his name on your scoresheet and mark *drop*. Remember, new players may be added only during the first four weeks of the session. **Exception:** New players may be added after the fourth week, but only with prior approval from the League Office. If you have a problem with a player, drop and replace him during the first four weeks, if possible. **Eligible** (meaning qualified for the World Championships) **teams may not, during the Spring Session, drop players from their roster after the fourth week of play. This is a World Championship rule.** All roster changes for qualified teams must be made prior to the team submitting their week four scoresheets. Players who are ineligible to participate in Higher Level Tournaments will be dropped from the roster by Local League Management prior to the Local Team Championship.

13. CLOSING TEAM ROSTERS

No player may join a team after the fourth week. No player may play without a handicap after the seventh week.

Exception: Players may be added to a team after the fourth week, but only with prior approval from the League Office. **Additions must be approved by the League Office prior to play.** If this exception were not allowed, some teams would be forced to quit, leaving byes in the schedule. Teams do not join this League to receive forfeits; they join because they want to play. The APA appreciates your understanding of this exception.

The Spring Session roster of eligible teams cannot be changed.

This exception cannot be used by eligible (qualified for the Local Team Championships) teams during the Spring Session. Eligible teams' rosters are locked and may not be altered unless the team elects to give up their eligibility.

14. EVERY PLAYER MUST BE A CURRENT APA MEMBER

You must have an up-to-date APA membership card. **Any team that allows a player to play without a current APA Membership will receive zero points for the week or weeks involved.** Their opponent will receive only those points they win plus the point(s) involving the illegal player(s). The League Operator will remove players from the roster who have not paid their membership fee by the end of the fourth week. **It is the Team Captain's responsibility to make sure all team members have paid their renewal or submitted a completed membership application along with the required fees by the first week they play.** If a player has not played by the fourth week, his fees must be paid then, or he will be dropped.

Your team will receive zero points if unpaid team members play.

Note: A player who has paid, but has not yet received his membership card, is eligible. The League Operator is the only person qualified to determine the status of a player's membership, so play all matches and check later.

15. NEW PLAYERS

A membership application along with the annual APA membership fee must be received with the team scoresheet when a new player shoots. Teams that allow an unpaid player to compete in a team match will be held accountable for the unpaid APA membership fee of \$25. **Captains, have your new players fill out their applications and pay you their fees before they play.**

New players must pay their membership fee before they play.

Note: The skill levels of new players may not reflect their true ability due to the lack of scores. For the same reason, the skill levels of new players often fluctuate during the first few weeks. Please allow for this and hold your complaints concerning new players.

16. KEEP YOUR MEMBERSHIP CARD

You must produce proof of current APA membership to receive APA awards and member discounts. You can download a copy of your membership card from members.poolplayers.com.

17. CONCERNING RENEWALS

Renewal notices will be circulated to all teams at the end of the Fall Session, during Spring Team Captains Meetings or during the first week of Spring Session play. Teams with players on their rosters who are unavailable to renew are advised to renew for them because the League Operator will drop any member from the team roster who has not renewed by the end of the fourth week of play.

18. CANNOT CHANGE TEAMS

You may not change teams within a division during a session unless approved by the League Operator, and then only once during the first four weeks.

19. YOU MAY APPEAR ON ONLY ONE TEAM ROSTER WITHIN A DIVISION

You may not play for more than one team in the same division.

20. TEAM MATCH PLAY

You may only play once in a team match unless otherwise stipulated in the Local Bylaws.

21. HOME LOCATIONS

Teams may not change Home Location during a session unless the location closes, the location requests it, or the League Operator approves the move.

22. THE LEAGUE OPERATOR MAY ASSIGN SKILL LEVELS

A League Operator is authorized to assign skill levels and lowest attainables to those players who are attempting to manipulate their handicaps by *sandbagging*, or to a new player who is a *known* highly skilled player.

23. UNDERSTANDING DEFENSIVE SHOTS

Over the years, there have been many questions and misinterpretations concerning Defensive Shots. The focus of this section is to help all APA members understand Defensive Shots so they can be identified consistently. With the proper understanding and marking of Defensive Shots by the scorekeeper and his teammates during Weekly League Play, *The Equalizer*® handicap system will work perfectly.

A Defensive Shot is a shot where the shooter deliberately misses so as to pass his turn at the table to his opponent. Simply stated, it is a shot where there is no intent on the part of the shooter to legally pocket a ball of his category. **Intent** is the determining factor. Think of it this way: **any time you are not playing offense, you are playing defense.**

Defensive Shots fall into two basic categories. The first category is safeties. A safety is defensive action taken when a player has no makeable or high percentage shot, or chooses to leave his opponent in a difficult situation. Safeties are perfectly ethical, yet intentional misses nonetheless, and must be marked as a Defensive Shot by the scorekeepers. The shooter's "intent" is the determining factor in these situations. Sometimes intent can be a matter of opinion and judgment, but the scorekeeper's judgment must be accepted by the opposing player.

The second category is intentionally missed shots for the purpose of manipulating one's handicap, also referred to as sandbagging. Players of all levels of skill who learn to recognize this unethical conduct can make it much more difficult for a player to unfairly manipulate his handicap.

Players with integrity call all safeties and intentionally missed shots. Not only is this considered good sportsmanship, but this practice ensures fewer discrepancies on the two scoresheets. It is not unusual for scoresheets to differ as to the number of Defensive Shots recorded. Both scoresheets must be signed, even if you disagree on the number of Defensive Shots.

Please report sandbagging to your League Operator or Division Representative, who in turn may contact other Team Captains to help determine the validity of the complaint. All sandbagging complaints must be made in writing for

Any time you are not playing offense, you are playing defense.

Scan to watch a video on Defensive Shots.

documentation purposes. This information will allow Local Management to make an accurate determination as to whether a player is trying to hold his skill level down. Teams or individuals guilty of *conspiring to manipulate the system* by counting innings, coaching their players to miss shots or lose games, or attempting any other dishonest practice as determined by Local League Management, will be penalized. If a player does not wish to compete fairly in our handicapped League, his membership is in jeopardy.

The determination of whether a player is playing at a skill level below his or her true ability or a team is conspiring to cheat the system is necessarily subjective; the League Operator may make such a determination and assess penalties in his/her sole judgment and absolute discretion.

Marking Defensive Shots both consistently and correctly ensures the effectiveness of *The Equalizer*® scoring and handicap system. The failure to mark Defensive Shots allows players and teams to advance with inaccurate skill levels. Play honest. Do not pad innings.

Note: If a player has a nearly impossible shot and does the best he can to hit **and make** one of his object balls, but fails to make contact with his object ball, it does not fall into the category of Defensive Shots as defined here.

24. MAKE SURE YOU KEEP SCORE PROPERLY

Refer to the section “How to Keep Score” later in this manual for complete instructions. Make sure you keep score properly, especially in the areas of marking *innings* and *Defensive Shots*. Your scoresheet will not always agree with your opponent’s in these two categories. You keep your score and let your opponent keep his. Penalties will be assessed to teams that:

- a. Try to *negotiate* more innings with their opponent;
- b. Coach their players to miss shots, thus running up their innings (You can prevent this by marking all *deliberate misses* in the *Defensive Shots* block of the scoresheet.); or
- c. Make any suggestions that are contrary to proper scorekeeping procedures.

Please report any team you believe violates scorekeeping procedures.

Proper scorekeeping combats sandbagging.

Scan to watch a video on proper scorekeeping.

25. A CAUTION AGAINST HANDICAP MANIPULATION

This rule also concerns the deliberate manipulation of skill levels. The League Operator or the Board of Governors (BOG) has the option to disqualify a team from becoming eligible for Session Playoffs and Higher Level Tournaments, or receiving awards as a result of their play in a session, if in the League Operator’s or Board of Governors’ sole judgment and absolute discretion, one or more of its players are deemed to be playing at a skill level below their true ability.

The League Operator and/or BOG should exercise this option no later than 15 days after the Session Playoff finals. Make sure the skill levels of all team members reflect their true ability. If you think a teammate’s skill level is too low for any reason, simply call the League Office and ask them to raise the player’s skill level appropriately.

26. ENJOY YOURSELF, DO NOT WORRY ABOUT THE HANDICAP SYSTEM

This League is intended for the pleasure of all APA members.

The Equalizer® handicap system is designed to give each member a fair chance to win matches and must therefore be protected. Occasionally it becomes obvious that a member is abusing the system by missing shot after shot while attempting at the same time to maintain control of the match. There are many *anti-sandbagging* measures within the League system, but devious play is still disruptive in nature and repeated complaints against teams or members may result in warnings and, if continued, cancellation of membership. Simply play the game and let the system do its job.

Simply play the game and let the system do its job.

27. LOWEST ATTAINABLE RULE

Once you have **10 League matches** on record or you have been assigned a skill level (therefore, an established skill level), **you will not be allowed to drop more than one skill level**, except for the rare instances of physical disability or other extreme circumstances which might permanently change your true ability. This is known as the *lowest attainable* rule.

28. APA CHAMPIONSHIP LOWEST ATTAINABLE RULE

In general, players who have participated in the **Poolplayer Championships** or **World Pool Championships** will have their *lowest attainables* raised to the highest exit skill level they attained during any one of these Championships. The APA maintains a permanent record of players who have participated in Championship events. Some exceptions may be made, but only if Local League Management specifically appeals an individual's championship lowest attainable. Those appeals, properly justified, will be granted.

29. TEAM SKILL LIMIT RULE IN OPEN DIVISION PLAY - 23-RULE

The total of the skill levels of the five players fielded in any team match cannot exceed 23.

A team playing fewer than five matches must show that it would not have exceeded 23 if the five matches had been played. If the **23-Rule** is broken, the offending team would receive zero points for the entire team match. The non-offending team would receive all points they won plus two points for the match in which the **23-Rule** was broken and any subsequent individual matches.

*5 players
fielded in any
team match
cannot
exceed 23.*

This rule cannot be intentionally broken.

Example: A team may play four players whose skill levels total 21 only if one of the players who is listed on the roster and did not show up is a SL2. Obviously, they are forfeiting the fifth match. If their lowest player who did not show up is a SL3, then the other four that played cannot exceed 20. If a team shows up with only three players, then they may total 19 only if there are two SL2s who did not show up and are listed on the roster. If the lowest two who did not show up are, for example, a SL3 and a SL4 (totaling 7) then the three who play cannot exceed 16.

During Session Playoffs and all levels of Team Championship play, the 23-Rule is still in force. It is not permissible for a team to lead off with three SL7s with the idea of winning the first three matches and forfeiting the team match if one of them loses. **A team must show that if the team match had gone the full five individual matches they could have stayed within the**

23-Rule. It is permissible for a team to count someone who is on the roster but not present at the match site. In other words, a team may plan on using a SL2 even if the player is not present at the match site. The team would have to forfeit the fifth match, but the advantage they gain is the right to play a higher skill level player earlier in the team match. There is always a chance the player who didn't show up will arrive later in the match.

When forming a new team, team members should exercise caution regarding the number of highly skilled players they recruit. If the team improves to where it can **no longer comply with the 23-Rule, then it must play four players whose combined skill levels do not exceed 19, and forfeit the fifth match.** If a team's skill levels elevate to the point where the skill levels of the lowest four players on the roster exceed 19, then they can play three players to 15. No team will be allowed to add a player to the roster for **23-Rule** purposes after the **fourth** week of play without prior approval from the League Office.

Nonrated gentlemen playing for the first time (meaning they have not established a skill level yet) will play their first match as a SL4; nonrated ladies will play their first match as a SL3.

A violation of the 23-Rule has officially occurred when the rack is struck in the individual match that causes the violation. If your opponent violates the **23-Rule**, notify the opposing Team Captain, and then note the violation on your scoresheet. If the notation (protest) is not on the scoresheet when received by the League Office, it is too late to protest. Get into the habit of checking.

EXAMPLES:

Legal	Illegal
76532 = 23	77655 = 30
66632 = 23	76653 = 27
54326 = 20	66543 = 24

30. SESSION PLAYOFFS

At the end of each session there is a playoff in each division among the top finishing teams. The team that wins the Playoffs wins the awards and the division title for that session, and gains eligibility into the Local Level of the World Championships. A team does not win the division title and eligibility by winning the most points during the session. Those points only gain you

a slot in the Playoffs. The Playoffs will normally take place during the break between sessions, and **full weekly fees will be collected.**

In each division, the top three finishing teams plus a wild card team will be in the Session Playoffs. During the semifinals, the first place team plays the wild card team and the second place team plays the third place team. In the finals, the two semifinal winners play each other to decide who the Division Champion will be.

Session Playoff site selection will be made at or prior to the Team Captains Meeting at the beginning of the session and will be indicated on the schedule. It is possible a playoff match will be at a neutral location, or it is possible the playoff site might be at the home of either or both of the teams involved.

How the Wild Card Team is Selected - After the final week of play, the League Operator or his designated representative, in the presence of witnesses, will conduct the wild card draw. Those teams not making the Playoffs are eligible for the draw unless they forfeit more than five individual matches during the course of the session, are not current with all League fees, or are judged ineligible by the League Operator for some other reason.

Tie-breaking Procedures - It will happen quite often that two teams will finish a session tied for a position. The following tie-breaking procedures are similar to those used in other sports organizations, and will be used to decide which team is ahead of the other. In some cases, these procedures may only dictate the difference between first and second place which is not so important because both teams will still make the Playoffs. In other cases, however, they will decide the more critical situation of one team making the Playoffs and the other not making the Playoffs.

- **If two teams are tied** - Break the tie by letting their records against each other during regular session play decide the issue.

Example: Teams #6 and #10 finish tied for 3rd Place. These two teams played each other twice during the session as follows:

1st Match: Team #6 won 7-5
2nd Match: Team #10 won 6-3

Team #6 totaled 10 points, while Team #10 totaled 11 points. Team #10 is the declared winner of third place.

- **If the two teams are still tied** - If they played twice and the result is still a tie, then only consider how they did against each other the last time they played. If the result is still a tie, the winner will be determined by the team that won the most individual matches the last time they played.
- **If three or more teams are tied** - Break the tie by matching the teams against each other according to which teams involved met first during the session. After the matching-up, proceed as described above to determine a winner and then match the winner against the other team in the tie as described above.

Example: Teams #2, #5, and #10 all tied for 3rd Place in a session. Looking back in the schedule, none of them met in the first week of play. Team #2 played Team #10 in the second week, so their tie is broken (as described previously). The loser is in 5th Place; the winner is matched against Team #5. The loser of this second tie-breaking matchup is in 4th Place, and the winning team assumes 3rd Place.

If teams are tied and they did not play each other during the regular session, the winner will be determined by who earned the most points in the last week of the regular session unless otherwise stipulated in the Local Bylaws.

Example: Teams #4 and #7 finish tied for 3rd Place. These two teams did not play each other during the session. Looking back at the last week of regular session play:

Last Match of Regular Session: Team #4 won 7pts

Last Match of Regular Session: Team #7 won 6pts

Team #4 would be declared the winner.

Had both teams earned the same number of points during the last week of the regular session, their point totals from the week prior would then be compared in order to determine a winner. Continue with this approach until the tie is broken.

All the rules governing regular session play are enforced for the Session Playoffs. Pay special attention to the 23-Rule as it pertains to Playoffs. There is a paragraph in those rules that specifically governs Playoffs. In Playoffs, it is sometimes not necessary to play all five matches.

Playoffs and championship matches are scored the same as weekly 8-Ball play, except a forfeited individual player match is worth three points. The first

team to reach a match point total which the opposing team cannot overcome is the winner. A situation that occasionally occurs during a Divisional Playoff Match (or any Higher Level Tournament) is that the match can end before all five individual matches are complete.

Example: In the 5th match, Joe (SL5) is put up against Jim (SL6). The normal race would be 4 to 5; however, Joe's team is ahead 6-4 after four individual matches have been played. Therefore, in order for Joe to win the match for his team, he only needs to make it to "The Hill". Even if he lost the match 2-1, his one match point would give his team seven total match points.

Note: When a Divisional Playoff Match (or any Higher Level Tournament Match) ends before either player reaches their assigned "Games Must Win", simply **stop the match** and write INCOMPLETE MATCH on the scoresheet. The two teams cannot agree to continue the match just for fun because the scoresheet must show where the match actually stopped.

Ties in Playoffs: In case of a tie at the end of a team match (5 to 5, 6 to 6, or 7 to 7 match points) the tie would be broken by the number of individual matches won by each team.

If after four matches, the team match is tied and neither team can field a fifth player, the team that won two individual matches first would be declared the winner.

For a player to participate in Session Playoffs, he must have played at least four times with that team during the session. Local Bylaws may stipulate additional requirements for playoff eligibility. If an ineligible player is chosen to play, then a violation of this rule officially occurs when the **rack is struck** in that player's match. The ineligible player forfeits the match and the teams go on to the next player match. The skill levels of both players count towards the **23-Rule** for that match. On the other hand, once the team match is over and either team has left the match site, or the scoresheets are signed by both Team Captains, the match will stand as played, even if an ineligible player(s) has competed. The official APA software program prominently displays the number of matches each player has played on the weekly scoresheet, making it easy to enforce this rule. **Byes and forfeits do not count as matches**

To participate in Playoffs you must play at least four times with your team during the session.

played. A team with an ineligible player(s) on its roster may NOT *use* that ineligible player for **23-Rule** purposes. Local bylaws may stipulate additional requirements for playoff eligibility.

31. NO PROFESSIONAL PLAYERS ALLOWED

This League is intended for amateurs, and the APA reserves the right to reject or cancel the memberships of those individuals whom the APA deems to be professionals. The APA has a variety of criteria for determining professional or amateur status. They include a touring (tournament) membership in any men's or women's professional billiards organization, winning tour points from any of those organizations, being a nationally known *money player* (a judgment call), or otherwise being recognized as a billiards professional, billiards celebrity or entertainer (noted performers of exhibitions, retired professionals, etc.). The APA reserves the right to rule on the amateur/professional status of any member, and we may consider all, some, or none of the above criteria. Just remember, if you enter a professional event, perform exhibitions, or otherwise behave as a professional, you risk your amateur standing in our association.

Locally, the League Operator and/or the Board of Governors has the option of disallowing participation by an individual who has consistently demonstrated professional characteristics. An individual who is a known *money player* and is perceived by the League Operator/Board of Governors to make a substantial portion of his living playing pool, rather than having other employment, could fall into this category. An individual who gives exhibitions or lessons for money may fall into this category. A *highly skilled* individual who is employed as a manager/assistant manager of a billiard room may be categorized as a *house pro* and could be ineligible for amateur play. The APA does not wish League Operators/Boards of Governors to disallow participation based strictly on ability. There are many skilled amateurs and they are welcome to play in the League.

32. EQUIPMENT

In general, any piece of equipment designed specifically for pocket billiards, with the exception of laser devices and mechanical cues, is acceptable in APA

League play. Some specialty cues (see **SPECIALTY CUES** described in definitions) may be limited in use. Special equipment, such as bridges and cue extenders, are legal. You may change cues and/or cue shafts during a game provided the cues and/or shafts you are switching to do not violate any rules of use, and you remain within the Time Guidelines (outlined on page 7).

Jump Cues – A specialty cue designed for attempting jump shots (see **JUMP SHOTS** described in definitions). They may not be used to perform jump shots or massé shots (see **MASSÉ SHOTS** described in definitions) in standard APA League and tournament play.

Break Cues – A specialty cue designed for breaking (see **BREAK SHOTS** described in definitions). Sometimes combined with jump cues to form a jump-break cue, these cues are allowed in APA play for breaking. They may not be used to perform jump shots or massé shots in standard APA League and tournament play.

Regular Shooting Cues – Any cue designed to shoot the majority of shots in a game of pool. These cues may also be used to perform jump shots, massé shots and break shots in all APA League and tournament play. You may not “break down” your Regular Shooting Cue to perform a jump shot.

APA will rule upon any piece of equipment in question that is not covered by this rule.

33. PLAYERS RECEIVING INCENTIVES

It is contrary to the best interest of the League and it leans toward professionalism for members to solicit or accept incentives to play for a location or for a team. Teams or players may face disqualification for soliciting incentives such as, but not limited to, free table usage or payment of all or part of League fees.

If a Host Location offers the same benefit to all members participating out of that location, it is probably acceptable. Special deals to just a few players are not acceptable.

34. SPORTSMANSHIP

Good sportsmanship is essential in pocket billiards as in any sport. Repeated complaints against you can lead to cancellation of your membership in the APA. In addition, if you disrupt the League by consistently arguing and disagreeing with League rules, rulings and policies you may face loss of membership.

35. RULES ARE SUBJECT TO CHANGE

Due to the ever-changing nature of sports and the situations that can and do occur, the APA reserves the right to make rulings and rule modifications as necessary and at any time. APA also reserves the right to make exceptions to rules in order to promote fairness.

Any rule changes will be sent to your League Operator and will be made available to all members through posted bulletins, Team Captains Meetings and/or will be published in *The American Poolplayer* magazine and poolplayers.com.

36. APA IS HIGHEST AUTHORITY

The American Poolplayers Association is the highest authority concerning all League rulings.

37. APPEALS

Your League Operator automatically reviews all disciplinary actions of any BOG established in your area and would notify you or your Team Captain of the decision. If you wish to appeal disciplinary action taken by Local League Management to the APA, you may do so. To appeal, you must send a written notice to APA addressed to the APA Appeals Committee at the address on the back of this manual. The notice must state the disciplinary action taken and why APA should review the decision of Local League Management. The APA has the sole authority and absolute discretion to act on the matter and its decision shall be final.

Note: The APA does not, nor does it authorize its League Operators or their employees to, discriminate against any individual based on race, creed, religion, sex, sexual preference, or any other criteria related to discrimination that has been established by the Federal Government. All individuals who meet the

minimum age requirements are eligible for APA membership, are eligible to take advantage of APA membership benefits, and are eligible to participate in APA programs unless they have violated rules that are specifically detailed in this *Team Manual*.

Understanding that APA's most popular programs involve teams, it is logical to assume the APA cannot dictate the composition of each team. Teams are typically made up of friends, relatives and/or co-workers and neither the APA, nor its League Operators, nor their employees, have the authority to guarantee any individual that he or she can be on any particular team.

Please understand that APA team play typically takes place in public locations, such as billiard rooms, taverns and clubs. The APA cannot force a team to participate in a location where the members of that team feel uncomfortable. The APA and its League Operators will exert best efforts to promote harmony, security, and satisfaction among APA members as related to the composition of teams and the types of establishments they participate in.

SECTION 3

8-Ball Game Rules

GENERAL DESCRIPTION - 8-Ball is played with a cue ball and a normal rack of 15 object balls. The primary purpose of this game is for one player to pocket the solid balls numbered from 1 to 7 or the striped balls numbered from 9 to 15, and then marking and pocketing the 8-ball before his opponent. Choice of balls to be pocketed is made by the player legally pocketing the first ball of the game.

For example, if the first ball pocketed in the game is the 3-ball, then the player must pocket the rest of the balls from 1 to 7 while the opposing player attempts to pocket all the balls from 9 to 15. The turn passes from one player to the next whenever the shooter fails to pocket a ball of his category or fouls. A player legally pocketing a ball of his category must continue to shoot. Winner of the game is the player pocketing his numerical group of balls first, followed by legally pocketing the 8-ball. The 8-ball must be pocketed in a marked pocket.

1. LAGGING

Players lag (see **LAG** described in Definitions) to see who wins the first break. If the lagged balls make contact during the lag, re-lag. The winner of the lag breaks in the first game and from that point on the winner of each game breaks in the next game. Players are discouraged from using the cue ball during the lag. Insisting upon lagging with the cue ball is considered a sportsmanship violation to be reported to the League Office.

2. RACKING

All balls should be frozen (touching) as tightly as possible. Balls are racked with the front ball on the foot spot and the 8-ball in the center of the triangle. The breaking player may request and receive a rerack. The loser of the lag and/or the loser of any subsequent game is the person who racks.

3. BREAKING

To be a legal break, players must break from behind the head string. The

head ball or the second row of balls must be struck first and at least four object balls must be driven to the rails or a ball must be pocketed. The cue ball may not be shot into a rail before the rack. If the rack is struck, but the break does **not** qualify as legal, the balls are reracked and rebroken by the same player. If the rack is struck, but the break does **not** qualify as legal **and** results in a scratch, the balls are reracked and broken by the opposite player. **THE RACK MUST BE STRUCK BEFORE A FOUL CAN OCCUR.** Breaking safe or soft is not allowed. The League Operator may make judgments and issue penalties to teams and players who are not breaking hard. Breaking just hard enough to comply with this rule is not a guarantee against penalties. Remember, break as hard as you can with control.

4. AFTER THE BREAK

Various circumstances can occur upon completion of the break. They are:

- a. A foul on a legal break will result in *ball-in-hand* behind the head string and the incoming player has an open table as defined in “4e.” The incoming player may then shoot at any ball that is outside the head string. Outside the head string is determined by aligning the middle or base of the ball with the imaginary line (head string) between the centers of the two appropriate diamonds (see Diagram of Table).

If an object ball is dead center on the head string, or *out*, then it is playable. If it is *in*, the ball is not playable. If the two players cannot agree on an object ball being *in* or *out*, then a third party is consulted for an opinion. If a third party is consulted, his opinion is final. If no third party is available or agreed upon, then a flip of a coin will decide the issue. To shoot at a ball that is *in* could be considered a sportsmanship violation to be reported to the League Office.

The cue ball must be *in* as described above before play can begin. It is up to the opponent to check to be sure the cue ball is *in* before it is shot. This is not a foul; no penalty may be assessed. If the cue ball is *out*, the shooter must place the cue ball behind the head string. To refuse and shoot anyway would be considered a sportsmanship violation to be reported to the League Office.

- b. No balls are pocketed and it is the other player’s turn.
- c. The 8-ball is pocketed. This is a win unless the player scratches, in which case he loses.
- d. A ball is pocketed; it is still the breaker’s turn and he continues shooting the category of balls he just made.
- e. A ball of each category is pocketed (for example, the 6-ball and the 12-ball). Now the breaker has his choice. He may shoot any ball except the 8-ball (which would be a foul); if he does not foul, anything that goes in counts. If he were to make one of each on his second shot, he would still have an *open table* and the same choice as after the break. If he were to miss or foul on his second shot, his opponent would have an *open table*. If the opponent then shoots and makes a ball, but also fouls on the shot, it is still an *open table*. *Open table* means a player can shoot a combination involving a stripe and a solid and whichever he makes, without committing a foul, would become his category for the remainder of the game.

Example: If a player has an *open table*, and he shoots the 6-ball into the 10-ball, and the 10-ball goes in the pocket, he has high balls (*stripes*) and must strike the high balls first from that point on.

- f. If two balls of one category and one ball of the other category are pocketed (for example, the 3-ball, the 6-ball, and the 10-ball) it is the shooter’s choice just as in “4e” above.
- g. Occasionally, a player mistakenly starts shooting the wrong category of balls. Although it is sportsmanlike for the sitting player to remind the shooting player that he is about to foul by shooting the wrong category of balls, it is not a requirement for him to do so. Once the shooter has hit the wrong category of balls, the foul has occurred whether the ball is pocketed or not. If the ball is pocketed, it is permissible, though not recommended, for the sitting player to allow the shooting player to continue pocketing the wrong category of balls until he feels inclined to call the foul. The shooting player can escape penalty by quietly realizing his error and returning to shoot the correct category of balls and legally contacting one of them before his opponent calls a foul, or by finishing

off the wrong category of balls and legally contacting the 8-ball prior to his opponent calling a foul. In other words, the sitting player must call the foul before the shooter returns to the correct category and makes legal contact, or before the shooter pockets the remaining balls of the wrong category and legally contacts the 8-ball. Once a player makes legal contact with the 8-ball, the player assumes control of that category of wrongly pocketed balls and can win the game by legally pocketing the 8-ball. In addition, if the sitting player does not call a foul before his opponent's turn ends, and subsequently contacts the wrong category himself, both players will assume the new category of balls for the remainder of the game. Before any foul has occurred, the shooter also may avoid penalty by asking the sitting player which category of balls he has. The sitting player must tell him the truth.

5. COMBINATION SHOTS

Combination shots are legal, but striking the correct ball first is required except in the *open table* situation. **The 8-ball is not neutral.** A player is credited with all balls he legally pockets. When a player does not pocket one of his balls, but pockets an opponent's ball, he loses his turn. The opponent gets credit for the pocketed ball. No pocketed ball is ever spotted.

6. BALLS ON THE FLOOR

Knocking the cue ball off the playing surface is a foul. If the 8-ball is knocked on the floor, it is loss of game. **Knocking any other object ball on the floor is not a foul.** Object balls that get knocked off the playing surface will be spotted on the foot spot. If the foot spot is taken, the ball will be placed on a line directly behind the foot spot as close to the foot spot as possible. If two or more balls are knocked on the floor, they are placed in numerical order with the lowest numbered ball closest to the foot spot; the placed balls will be frozen to one another. It might occur that a player legally pockets a ball while simultaneously knocking some other ball(s) on the floor. In this situation, it is still his turn and the ball(s) is not spotted until he misses. If the ball on the floor is one of the shooter's balls, then it is spotted when the shooter has pocketed all of his other balls or misses.

7. POCKETED BALLS

Balls must remain in a pocket to be legal. If a ball goes in a pocket, but bounces back onto the playing surface, it is not considered pocketed. If it is

the 8-ball, it is not to be considered as either a win or a loss. If it is the cue ball, it is not to be considered a scratch.

Note 1: If a ball which has been *hanging* in a pocket for more than a few seconds suddenly falls in, it is to be placed back on the table where it was originally sitting. Once a ball has *stopped* all motion, it cannot move again without outside forces affecting it. So, if it falls in a pocket, it is to be placed back on the table where it was before it fell.

Note 2: It occasionally happens on tables with small pockets that two balls become jammed in a pocket and are leaning over the edge of the slate to some degree. They are *off* the playing surface and are considered pocketed. Drop them in and resume playing the game unless the pocketing ends the game (8-ball or cue ball scratch when shooting the 8-ball).

8. ONE FOOT ON THE FLOOR

At least one foot must be on the floor at all times while shooting if a bridge is present. There is no foul, simply stop the shooter and hand him the bridge. League Management cannot guarantee the presence of bridges, and some Host Locations do not have them. If a bridge is not available, house rules prevail.

Exception: Players shooting from a wheelchair must remain seated in their wheelchair while shooting.

9. MARKING THE TABLE

Marking refers to a physical alteration in the appearance of the cloth on a pool table. No one is allowed to mark the cloth. For example, using chalk to draw a line or wetting your finger to dampen the cloth is not allowed. It is permissible to set a piece of chalk on the hard surface of the rail.

10. FOULS

If any of the following fouls are committed, the penalty is *ball-in-hand* for the incoming player. Make certain you have *ball-in-hand* before you touch the cue ball. Confirm it with your opponent before touching the cue ball. *Ball-in-hand* might be new for many members and therefore warrants further explanation. *Ball-in-hand* means you get

*Verify with
your opponent
you have
ball-in-hand.*

to put the cue ball anywhere on the table (with the exception of a scratch on the break which results in *ball-in-hand* behind the head string), and shoot any of your balls (or the 8-ball, if all of your balls have been pocketed) regardless of where that ball is. A player exercising his rights under the *ball-in-hand* rule may place the cue ball on the table anywhere he desires.

Even after having addressed the cue ball a player may, if not satisfied with the placement, make further adjustments with his hand, cue stick or any other reasonable piece of equipment. A foul may be called only if the player fouls the cue ball while actually stroking at the cue ball, meaning a double hit of the cue ball (sometimes called double clutching). The *ball-in-hand* rule penalizes a player for an error. Without this rule, a person can actually benefit by accidentally or purposely scratching or otherwise fouling. In the unlikely event that a game should ever become **stalemated**, meaning that neither player wants or can make use of *ball-in-hand*, then the balls are reracked, the same player breaks and the innings for the **stalemated** game are crossed off the scoresheet.

Only the player or the Team Captain may officially call a foul, although anyone may suggest to the player or the Team Captain that a foul should be called.

These are the only fouls resulting in *ball-in-hand*. All other violations are sportsmanship violations. The *ball-in-hand fouls* are as follows:

- a. Anytime during a shot, the cue ball goes in a pocket, on the floor, or otherwise ends up off the playing surface.
- b. Failure to hit a correct ball first. (A player who is shooting stripes must hit a striped ball first.) **The 8-ball is not neutral.** In general, the shooter has the advantage in close hit situations unless his opponent has asked an outside party to watch the hit. Protect yourself. If you think your opponent is getting ready to shoot a shot that could possibly be a bad hit, stop him from shooting and get someone to watch the shot. Potential *bad hit* situations are usually fairly obvious and protests and disputes over these close situations can almost always be avoided if someone is asked to watch the shot. If the outside party cannot determine which ball was struck first, such as a simultaneous hit, the call goes to the shooter. Teams involved in repeatedly calling bad hits without outside party verification may be subject to penalty points for disruptive unsportsmanlike behavior.

- c. Failure to hit a rail after contact. A rail must be hit by either the cue ball or any other ball after the cue ball and the object ball make contact. A pocketed ball counts as a rail. Even if the ball bounces back onto the playing surface, it is considered to have hit a rail, as the pocket liner is part of the rail. A sentence that should answer many questions is: *ANY ball must go to a rail AFTER LEGAL contact.*
- d. The object ball is *frozen* to a rail and the player is contemplating playing a *safety* (see **SAFETY** described in Definitions). In order for the following *frozen ball* rule to be in effect, the opponent must declare that the ball is *frozen* and the player should verify. Once it is agreed that the ball is *frozen*, then the player must either drive the object ball to another rail (of course, it could hit another ball, which in turn hits a rail), or drive the cue ball to the rail after it touches the object ball. If the latter method of *safety* is chosen then the player should take care that he quite obviously strikes the object ball first. Unlike simultaneous hits between object balls, if the cue ball strikes the rail first or appears to hit both the rail and ball simultaneously, then it would be a foul unless either the cue ball or object ball went to some other rail.
- e. It is illegal and, therefore, a foul to jump a cue ball over another ball by scooping it up in the air on purpose.
- f. Receiving illegal aid (coaching from person(s) other than the coach) during your turn at the table. To determine what is and is not considered coaching, refer to **COACHING** in the General Rules Section of this manual.
- g. Causing even the slightest movement or altering the course of the cue ball, even accidentally, is a foul. Even dropping the chalk on the cue ball is a foul. It is not a foul, however, to accidentally move any other balls (including the 8-ball) unless, during his turn at the table, a player moves a ball and it in turn comes in contact with the cue ball. Any balls moved accidentally during a shot **must be replaced** by the opponent after the shot is over and all balls have stopped rolling. If during the course of the shot, another ball stops in the position previously occupied by the accidentally moved ball, the opponent must place the accidentally moved ball, in an ethical manner, as close as possible to its original position. If it occurs before the shot, it **must be replaced** by the opponent before the shot is taken.

8-Ball Game Rules

Exception: If an accidentally moved ball comes in contact with the cue ball, creating a foul, no object ball will be replaced.

- h. If, during the course of a shot, the cue ball does not touch anything.
- i. Exercise caution when picking up or placing the cue ball in a *ball-in-hand* situation. The cue ball is always *alive*. If the cue ball, **or the hand holding or moving it**, touches another ball it is a cue ball foul and your opponent has *ball-in-hand*. Be especially careful when you are picking up or placing the cue ball in a tight spot.
- j. The player or his coach (during a time-out) may place the cue ball in a *ball-in-hand* situation. The same rule regarding placing the cue ball applies to the coach as it applies to the player. If the player, or coach fouls in the process of placing the cue ball, it will be *ball-in-hand* for the opponent. Therefore, it should be the player's choice if he wishes to place the cue ball or allow his coach to do so.

11. WAYS TO LOSE:

- a. Your opponent pockets his numerical group and legally pockets the 8-ball.
- b. You pocket the 8-ball out-of-turn or knock it on the floor.
- c. When playing the 8-ball, you pocket the 8-ball in the wrong pocket or fail to properly mark the pocket where the 8-ball went in.
- d. You foul the cue ball and then pocket the 8-ball.
- e. When playing the 8-ball, you scratch. You lose whether or not you pocket the 8-ball.

Note: If you are shooting at the 8-ball and miss it altogether without scratching, you have fouled and your opponent has *ball-in-hand*, but you don't lose because of this foul.

- f. A game is lost if you alter the course of the 8-ball or the cue ball in a game losing situation.

8-Ball Game Rules

Example: You are shooting the 4-ball, miss the pocket, and the 4-ball hits the 8-ball. The 8-ball is going towards the pocket and you reach out and stop it and try to claim that it is only a *ball-in-hand foul*. Wrong, it is loss of game.

Example: You are shooting at the 8-ball and miss the pocket and the 8-ball is heading towards the wrong pocket or the cue ball is heading towards a pocket. You reach out and stop the ball and claim that it is only a *ball-in-hand foul*. Wrong, it is loss of game.

12. HOW TO WIN

You have won the game when all the balls of your numerical group have been pocketed and you have legally pocketed the 8-ball in a properly marked pocket without scratching. To properly mark the pocket, a coaster or some other reasonable marker (to avoid confusion, although it is permissible, we do not recommend marking the pocket with chalk) must be placed next to the pocket the 8-ball is intended to enter. Both teams may use the same marker. Only one marker should be on the table. However, if more than one marker is on the table, as long as you clearly mark the pocket where you intend to pocket the 8-ball you have properly marked the pocket. If the marker is already at the intended pocket from a previous attempt or game, it is not necessary for you to touch it, pick it up, or reposition it.

Note: You may not play the 8-ball at the same time you play the last ball of your category. The 8-ball must be a separate shot.

SECTION 4

The Equalizer® Handicap System

The uniqueness of *The Equalizer*® handicap system is that it brings out the best in both the novice or beginning player and the expert should they meet in a match. **With *The Equalizer*®, it is feasible for a beginner to have a nearly equal chance in a match with a more highly skilled player.** *The Equalizer*® aids the lesser skilled player by dictating mathematically that he needs to win fewer games than his more highly skilled opponent to win a match. In golf and bowling you give or get strokes or pins. In this League, you give or get games. How many games you give or get is determined by comparing your skill level to the skill level of your opponent. Higher skill level players give lower skill level players a number of games, thus evening the match.

1. HOW HANDICAPS ARE DETERMINED

Your Local League Office calculates and reports player skill levels to the teams on a regular basis. Your skill level determines how many games you have to win, in order to win your match. Skill levels are maintained, calculated and updated by the Local League Office. The process includes a number of factors such as the application of specific mathematical formulas to the data on the weekly scoresheets, win/loss records, Higher Level Tournament performance, qualitative judgment by Handicap Advisory Committees, and other considerations. You are asked to refrain from attempting to keep your own records as it is a generally disruptive practice. The APA appreciates your cooperation with this policy.

*Skill levels are maintained,
calculated and updated by
your Local League Office.*

2. HOW TO GET STARTED

Obviously, new players do not have a skill level established, so a standard starting method has been devised for new players. Statistics show that 74% of male players are SL4s and higher while 71% of female players are SL3s and below. **Gentlemen** will play their first match as a **SL4**; **ladies** will play their first match as a **SL3**. A League Operator is authorized to assign skill levels and lowest attainables to new players who are *known* highly skilled players or to players who have previously established skill levels in another format. If a player has previously established a skill level in the APA 9-Ball format, then he will begin play in 8-Ball with his current 9-Ball skill level.

Note: A SL1 will begin as a SL2 in 8-Ball and SL8 or SL9 will begin as a SL7 in 8-Ball.

As a result of your first match, a skill level is established and reported for you. It is against the rules for a player who has an established skill level to attempt to reestablish his skill level at a later time. In other words, you cannot quit for a while and then rejoin the League or transfer to another League area as a **nonrated** player. You are obligated to disclose the fact that you are a former member or a current member in another League area and already have an existing skill level.

3. ONCE SKILL LEVELS ARE ESTABLISHED

Now it is time to take a look at how your skill level and the skill levels of the other players interact to create the highly competitive atmosphere that has made this League so successful. Remember you are going to give or get games. During regular weekly session play, simply refer to the “GAMES MUST WIN” chart shown at the top of the next page. This chart is also printed on the scoresheet for your convenience.

“GAMES MUST WIN” CHART

S/L	YOUR OPPONENT					
	2	3	4	5	6	7
2	2/2	2/3	2/4	2/5	2/6	2/7
3	3/2	2/2	2/3	2/4	2/5	2/6
4	4/2	3/2	3/3	3/4	3/5	2/5
5	5/2	4/2	4/3	4/4	4/5	3/5
6	6/2	5/2	5/3	5/4	5/5	4/5
7	7/2	6/2	5/2	5/3	5/4	5/5

4. HOW TO USE THE “GAMES MUST WIN” CHART

To read the chart, find your skill level along the left side of the chart. Then find your opponent’s skill level along the top of the chart. Now, track to the right from your skill level and down from your opponent’s skill level until the two tracks meet. In that block, the first number is the number you race to, and the second is the number your opponent races to. The two numbers involved should have the same differential as your skill levels. For example, a SL6 playing a SL4 tracks to the block with 5/3 (circled) in it. The SL6 races to 5 while the SL4 races to 3. 5 to 3 is a differential of 2, just as 6 to 4 is a differential of 2.

Example 1: On this particular League evening, Bill is scheduled to play Frank. Frank is a SL5. Bill just joined the League and is a *nonrated* player, meaning that he does not have a skill level yet. Therefore, Bill plays as a SL4 and Frank plays at his SL5. Referring to the “GAMES MUST WIN” chart, you can see that a match between a SL5 and a SL4 has the SL5 player racing to 4 and the *nonrated* player racing to 3. That is a difference of 1 game which is the difference in the skill levels. Frank is going to have to win 4 games of 8-Ball before Bill wins 3. That is Bill’s advantage or *equalizer*.

SECTION 5

How to Keep Score in 8-Ball

The weekly 8-Ball scoresheet is very important and should be filled out neatly, completely and correctly, and then signed by both Team Captains. Penalties will be assessed for repeated illegible, incomplete or incorrect scoresheets.

TEAM #	TEAM # 7 Put up the first player		PLAYER NUMBER	Games Must Win	INNINGS AND TIME OUTS									8-B & RAIN BREAK	DEFENSIVE SHOTS	Games Won	Matches Entered	Points	
	PLAYER NAME	PLAYER NAME			Game 1	Game 2	Game 3	Game 4	Game 5	Game 6	Game 7	Game 8	Game 9						
3	Jones, M.	00118	5	5	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
7	Smith, P.	02340	3	3	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15

In the partial illustration of a scoresheet above, we see that Jones (a SL7) and Smith (a SL5) have been selected to play each other. Their skill levels are reported to them on a portion of the scoresheet not visible in the illustration. The following instructions explain how to complete the scoresheet properly.

Scan to watch a video on 8-ball scorekeeping.

1. PLAYER INFORMATION

Whoever wins the lag is listed first (on top). List his team number, last name and initial, player number (from team roster) and the games he must win. You obtain that number from the “GAMES MUST WIN” chart described in the preceding section. Now do the same for his opponent. In the illustration, Jones won the lag and is, therefore, listed first. He is a SL7 and Smith is a SL5. Referring to the chart, we see that a match involving a SL7 and a SL5 has the SL7 racing to 5 and the SL5 racing to 3, so a 5 is entered in the “GAMES MUST WIN” block for Jones and a 3 for Smith.

2. DECLARED PLAYER SECTION

After the coin toss determines who must declare the first player, place the appropriate team number in the space provided to assist in tracking which team chooses first in each subsequent match.

3. THE “INNINGS AND TIME OUTS” SECTION

An inning in pool is a completed cycle that gives both players a turn at the table. The player who won the lag is listed first and is the top half of the inning throughout the match. The player who lost the lag is the bottom half of the inning throughout the match. **An inning is not over and, therefore, not marked until the player who lost the lag misses or fouls.**

- a. **THE “GAMES” BLOCKS** - A separate box has been created for each game. Indicate the number of innings in each game as in the illustration and indicate who won the game by darkening the upper or lower block in the right hand portion of each game box. Upper for the player listed first (on top) and lower for his opponent. Mark Early 8's (E8), 8-Ball Scratch (8S), 8 Wrong Pocket (8WP), 8-on-the-Break (8OB), and Break-and-Runs (BR) on your scoresheet within the game box it occurred. Indicate time outs taken by marking a “T” in the corner triangles of the games block, the upper two triangles for the player listed first (on top) and the lower two for his opponent. Always mark the first time-out in the triangle on the left of the games block. In the illustration, it can be seen that there were three innings in the first game and Jones won it with one time-out. In the fourth game, it can be seen that Jones not only won the game, but that he broke and ran out—Smith didn't get a shot. We know he broke because he won game three, and we know he ran out because there would have been at least one inning had Smith gotten a shot. Jones won games one, three, four, six and seven. Smith won games two and five each with one time-out.

The player who lost the lag ends the inning.

Mark complete innings only. If a player Break-and-Runs a rack, the inning is not over yet because he is still shooting (breaking) in the next game. Mark a zero (0) in the game box. An inning is never marked until the player who lost the lag, and who is the bottom half of the inning throughout the entire match, MISSES OR FOULS. An inning is not over at the end of a match unless the bottom player loses the match on his final shot.

- b. **THE “TOTAL INNINGS” BLOCK** - Total all the innings for the entire match and enter the number in this block. It is “21” in the illustration.

4. “8-BREAK” AND “8-B & RUN” BLOCKS

Use the appropriate block to mark the total 8-balls pocketed on the break (8OB) and the total of all Break-and-Runs (BR) for each player.

5. THE “DEFENSIVE SHOTS” BLOCK

This is where intentionally missed shots are indicated. A Defensive Shot must be marked for a player on any shot where there is no INTENT to legally pocket a ball of his category. At the end of the match, total and circle the number of Defensive Shots for each player. If there are no Defensive Shots in a match write “No DS” in the block.

Mark all intentionally missed shots.

By conscientiously marking intentionally missed shots, you are not only keeping score properly, you are also helping to ensure the accuracy of the skill levels of the other players in your division. In the illustration, Jones had two Defensive Shots and Smith had five.

Note: The marking of a Defensive Shot does not affect the marking of the inning. In other words, the inning is marked and so is the Defensive Shot, if appropriate.

(See UNDERSTANDING DEFENSIVE SHOTS in the General Rules section)

6. THE “GAMES WON” BLOCK

This is where the total number of games won by each player is recorded. In the illustration, Jones won five games and Smith won two games.

How to Keep Score in 8-Ball

7. THE “MATCH POINTS EARNED” BLOCK

The number of Match Points Earned in any given match will be determined by the number of games the losing player won. See chart below:

Match Points Earned	Winner	Opponent
Shutout	3	0
Losing player made it to the Hill	2	1
Losing player won at least 1 game but was not on the Hill	2	0

8. THE “RUNNING TOTAL” BLOCK

Utilize the “Running Total” block to add up the match points earned block for each of the individual matches played.

9. THE “FEES SECTION”

Team Captains should complete the financial section, located in the lower left portion of the scoresheet (not shown in the illustration). All money placed in the envelope with the scoresheet should be itemized. It is important to list annual membership dues along with the names of the members who are paying, as well as any nonstandard payments.

10. TEAM CAPTAIN’S SIGNATURE BLOCK

When your team match is over, record the total number of match points earned (available in the “Running Total” block) for each team. Record the total number of points earned by your team on both scoresheets in the block provided at the end of your Team Captain’s signature line and then sign both scoresheets.

11. TABLE SIZE SECTION

Check the appropriate box to designate which size table the match was played on.

How to Keep Score in 8-Ball

Accurate and conscientious scorekeeping is the Team Captain’s greatest contribution to the smooth operation of *The Equalizer*® handicap system and the prevention of *sandbagging*. *The Equalizer*® will work perfectly if every team keeps score properly. Anytime a player does not attempt to pocket one of his object balls it should be marked in the player’s Defensive Shots block. The only way a team can get away with manipulating *The Equalizer*® handicap system is IF YOU LET THEM. Your Local League Management processes the scoresheets you submit. You improve the League and your chances of winning by playing by the rules and the spirit of the rules and by keeping score according to the book. Your cooperation will be appreciated by your teammates, your fellow members, your Local Management, and the APA.

SECTION 6

The 9-Ball League

9-Ball is for everyone! Here's your chance to play the same game the pros play and have a great chance at winning.

Except as specifically indicated in this section and as common sense would dictate, all of the information contained in this manual also applies to the 9-Ball League.

A. GENERAL 9-BALL RULES

Some of the specifics that should be mentioned concerning the 9-Ball League are as follows:

1. The **overall team skill limit rule is 23**. If the **23-Rule** is broken, the offending team would receive zero points for the entire team match. The non-offending team would receive all points they won plus 15 points for the match in which the **23-Rule** was broken and any subsequent matches.

2. Only **two senior skill level** players may play in any given team match. Senior skill level players are players who have a skill level of 6, 7, 8, or 9. If an ineligible (by this rule) player is chosen to play, then a violation of this rule officially occurs when the **rack is struck** in that player's match. The ineligible player forfeits the match and the teams go on to the next player match. Both players' skill levels count towards the **23-Rule** for that match. On the other hand, once the team match is over and either team has left the match site, or the scoresheets are signed by both Team Captains, the match would stand as played even if an ineligible player has competed.

*Only two
senior skill
level players
may play in
a team
match.*

3. How **byes** are scored - Assuming no replacement team is found, 60 points will be awarded for all byes.

4. The **forfeit rule** reads the same as in 8-Ball, except a forfeited individual player match is worth up to 15 points and 20 points in playoffs/Higher Level Tournaments.

5. **Coaching** - Disregard reference to category when reminding a player which ball to shoot. Reminding a player which is the next ball in rotation is not considered coaching. Coaching time-outs are the same as 8-Ball, but include skill level 1 as receiving 2 coachings per game and skill levels 8 and 9 as receiving 1 coaching per game.

6. **Playoffs and championship matches** are scored the same as weekly 9-Ball play, except a forfeited individual player match is worth 20 points. The first team to reach 51 match points is the winner.

Example: In the 5th match, Joe (SL5) is put up against Jim (SL6). The normal race would be 38 to 46; however, Joe's team is ahead 48-32 after four individual matches have been played. Therefore, in order for Joe to win the match for his team, he only needs to pocket 15 points, because, even if he lost the match 17-3, his 3 match points would give his team 51 total match points.

Note: When a Divisional Playoff Match (or any Higher Level Tournament Match) should end before either player reaches their assigned point count, simply **stop the match** and write INCOMPLETE MATCH on the scoresheet. The two teams cannot agree to continue the match just for fun because the scoresheet must show where the match actually stopped.

In case of a tie at the end of a team match (50 to 50 match points) the tie would be broken by the number of individual matches won by each team.

7. 9-Ball participation does not qualify you for 8-Ball Championships.

B. 9-BALL GAME RULES

Many of the rules concerning 9-Ball are similar to those used in 8-Ball. When this is the case, it will be indicated. The rest of the details concerning 9-Ball follow.

1. GENERAL DESCRIPTION

9-Ball is played with a cue ball and nine object balls numbered 1 through 9. 9-Ball is a rotation game, meaning the balls are shot in numerical order. The shooter must strike the lowest numbered ball on the table first. The game is over when the 9-ball is pocketed. A player retains his turn at the table as long as he strikes the lowest numbered ball first and legally pockets a ball. He need not pocket the lowest numbered ball to continue shooting. He may, for example, shoot the 1-ball into the 4-ball thus pocketing the 4. He would continue shooting and must, once again, strike the 1-ball first. **If the shooter shoots the 1-ball into the 9-ball and the 9-ball is pocketed, the game is over.**

2. LAGGING

The same as 8-Ball.

3. RACKING

Nine balls are used and are racked in a diamond shape. **The 1-ball is at the front of the rack and on the foot spot.** The **9-ball is in the center** and the rest of the object balls can be placed in any numerical order.

Note 1: When using coin-operated tables, save some money by using all the balls in the event of a short game. Example: If the 3-ball and 9-ball are made on the break, the balls are reracked (because a 9-on-the-Snap is a winner) using the 10-ball and 11-ball. The object ball sequence in the next game is 1, 2, 4, 5, 6, 7, 8, 10, 11. The 11-ball, in effect, is the “9-ball” (last ball) in this game. Do not say the 10-ball replaces the 3-ball; it is too confusing. Shoot the balls in numerical order.

Note 2: The breaker can demand that the lowest available nine balls be used each game.

4. BREAKING

To be a legal break, players must break from behind the head string. The head ball must be struck first and at least four object balls must be driven to the rails or a ball must be pocketed. The cue ball may not be shot into a rail before the rack. Failure to strike the 1-ball first does not result in a foul. If the rack is struck, but the break does **not** qualify as legal, the balls are reracked and rebroken by the same player. If the rack is struck, but the break does **not** qualify as legal and results in a scratch, the balls are reracked and broken by the opposite player. **THE RACK MUST BE STRUCK BEFORE A FOUL CAN OCCUR.** Breaking *safe* or *soft* is not allowed. The League Operator may make judgments and issue penalties to teams and players who are not breaking hard. Breaking just hard enough to comply with this rule is not a guarantee against penalties. Remember, break as hard as you can with control.

5. AFTER THE BREAK

Various circumstances can occur upon completion of the break. They are:

- a. A foul on a legal break will result in *ball-in-hand* anywhere on the table for the breaker’s opponent. Pocketed balls, if any, stay down (are not spotted), except the 9-ball.
- b. No balls are pocketed and it is the other player’s turn.
- c. The 9-ball is pocketed. This is a win unless the player scratches, in which case the 9-ball (any other available high numbered ball is adequate) is spotted and the turn passes to his opponent.
- d. A ball or a number of balls are pocketed. It is still the breaker’s turn and he shoots at the lowest numbered ball on the table.
- e. Occasionally it occurs that a player mistakenly shoots the wrong ball. Although it is sportsmanlike for the sitting player to remind the shooting player he is about to foul by shooting the wrong ball, he is not required to do so. Once the shooter has hit the wrong ball, the foul has occurred whether the ball is pocketed or not. If the ball is pocketed, it is permissible, though not recommended, that the sitting player allow the shooting player to continue shooting until he feels inclined

to call the foul. Any balls pocketed prior to the foul being called will be marked as “dead balls.” The shooting player can escape penalty by quietly realizing his error and returning to shoot the correct ball and striking it first on a shot prior to his opponent calling the foul. In other words, the sitting player must call the foul before the shooter has shot the correct ball.

Note: Push-outs are fairly standard in pro events and in the U.S. Amateur Championship (conducted by the APA); however, APA rules for all handicapped competition does not allow push-outs.

6. COMBINATION SHOTS

Combination shots are legal and extremely common in 9-Ball. **Just make sure to hit the lowest numbered ball on the table first.**

7. BALLS ON THE FLOOR

Knocking the cue ball off the playing surface is a foul. **Knocking an object ball on the floor is not a foul.** Object balls that get knocked off the playing surface will be **immediately** spotted on the foot spot. If the foot spot is taken, the ball will be placed on a line directly behind the foot spot as close to the foot spot as possible. If two or more balls are knocked on the floor, they are placed in numerical order with the lowest numbered ball closest to the foot spot. Spotted balls are frozen to one another. It might occur that a player legally pockets a ball while simultaneously knocking some other ball(s) on the floor. In this situation, the ball(s) is spotted and the player continues shooting until he misses.

In 9-Ball, a foul on a legal break is ball-in-hand anywhere on the table.

8. POCKETED BALLS

Balls must remain in a pocket to be legal. If a ball goes in a pocket but bounces back onto the playing surface, it is not considered pocketed.

Note 1: If a ball which has been hanging in a pocket for more than a few seconds suddenly falls in, it is to be placed back on the table where it was

originally sitting. Once a ball has **stopped** all motion, it cannot move again without outside forces affecting it. So, if it falls in a pocket, it is to be placed back on the table where it was before it fell.

Note 2: It occasionally happens on tables with small pockets that two balls become jammed in a pocket and are leaning over the edge of the slate to some degree. They are **off** the playing surface and are considered pocketed. Drop them in and resume playing the game unless the pocketing ends the game.

9. SPOTTING BALLS

Other than the circumstances described in **BALLS ON THE FLOOR**, the only ball that would ever be spotted would be the 9-ball when the shooter has pocketed the 9-ball and scratched or otherwise fouled. If the shooter makes the 9-ball on the break and fouls or scratches, the 9-ball (and only the 9-ball) is spotted. If the shooter is shooting at the object ball and plays it into the 9-ball and pockets the 9-ball, but scratches or otherwise fouls in the process, the 9-ball is spotted. The incoming player has **ball-in-hand** and will be shooting at the lowest numbered ball on the table.

10. FOULS

The same as 8-Ball except as follows:

- a. The exception concerning scratching on the break does not apply to 9-Ball. Scratching on the break is **ball-in-hand** anywhere just as other fouls.
- b. The foul concerning striking the correct ball first applies, but ignore the reference to stripes or solids.
- c. The foul concerning illegal aid still applies, but ignore the reference to reminding a player to mark the 8-ball. The 9-ball does not have to be called; therefore, the pocket the 9-ball is going to be pocketed in does not have to be marked.

In the unlikely event that a game should ever become **stalemated**, meaning that neither player wants or can make use of **ball-in-hand**, the game shall end but the points earned stand. The innings and Defensive Shots remain; all remaining balls on the table become dead balls. The player who broke in the **stalemated** game will break in the new game.

11. SCORING

A player receives a point for every ball pocketed from 1 through 8 (except those pocketed when he scratches or otherwise fouls) and two points for pocketing the 9-ball.

Example 1: If a player pockets the 9-ball on the break and does not scratch, the game is over and he gets two points. This is known as a “9-on-the-Snap” (9OS).

Example 2: If a player pockets the 9-ball and one other object ball on the break and does not scratch, he gets three points and the game is over.

Example 3: A player makes the 9-ball on the break as well as another object ball and scratches. The 9-Ball is spotted (any other available high numbered ball is adequate), and the other object ball is recorded as a dead ball. His opponent then takes *ball-in-hand* and legally runs all the balls off the table. He receives a point for each of the seven (remember one ball was already gone) object balls pocketed and two points for the 9-ball, or nine points total.

Example 4: Player A breaks and makes a ball, then runs all the balls but scratches (or fouls) when pocketing the 9-ball. The 9-ball is spotted and player B takes *ball-in-hand* and pockets the 9-ball. Player A gets eight points. Player B gets two points and breaks the next game.

C. THE EQUALIZER® HANDICAP SYSTEM FOR 9-BALL

Although the 9-Ball handicaps are calculated differently, it is essentially the same as it is for 8-Ball (see *The Equalizer®* Handicap System Section). In 9-Ball you give and get points rather than games. *The Equalizer®* aids the lesser skilled player by dictating mathematically that he needs to earn fewer points than his more highly skilled opponent to win a match.

1. HOW TO GET STARTED

Getting started in 9-Ball is essentially the same as in 8-Ball. Listed below are the exceptions:

- a. **Statistics show that 76% of male players are SL4s and higher while 73% of female players are SL3s and below. A nonrated gentleman will play**

his first match as a SL4 as he does in 8-Ball. But, a nonrated lady will play her first match as a SL2.

- b. If a player has previously established a skill level in the APA 8-Ball format, then he will begin play in 9-Ball with his current 8-Ball skill level or a skill level assigned by the League Operator.

Exercise caution when forming your 9-Ball team. Consider that current members on your 8-Ball team could experience a critical change in skill levels that would affect your compliance with the 23-Rule.

2. ONCE SKILL LEVELS ARE ESTABLISHED

Now it is time to take a look at how your skill level and the skill levels of the other players interact to create the highly competitive atmosphere that makes this League so successful. Remember, you are going to give or receive points. Simply refer to the following chart.

Player's Skill Level	Points Required to Win
1	14
2	19
3	25
4	31
5	38
6	46
7	55
8	65
9	75

The chart indicates the number of points that each skill level is required to attain in order to win a match. A SL3, for example, must get to 25 points before his opponent reaches the number of points he is trying to attain. If, for example, a SL3 is playing a SL5 and the score is 24 points for the SL3 and 32 points for the SL5, then the SL3 only needs one more point (one more legally pocketed ball) in order to win the match. If the SL3 were breaking and made a ball on the break without scratching, the match would be over. If the SL3 were to make two balls on the break giving him a score of 26, you only mark the one point needed to win the game. The game and the match are both over at that point.

D. HOW TO KEEP SCORE

Keeping score in 9-Ball is just as important as keeping score in 8-Ball. Read and follow the instructions in this manual except as follows:

In 9-Ball, the Team Captains should coordinate the scorekeeping. It is suggested that one member from each team sit together and keep score.

The rosters, standings and next week's schedule are printed on the back of the scoresheet.

		75															15		15				
		60															65		70				
		50															55		60				
		40															45		50				
		30															35		40				
		20															25		30				
		10															15		20				
		0															5		10				
01	Player # 00120 JONES, JOE	7	Score 9	12	17	23	29	39	43	48	51	55	59	63	67	71	75	Total Inning 1	20	Defensive Shots 5	Total Points 55	Match Points Earned 15	Running Total 15
04	Player # 00201 SMITH, STEVE	5	Score 0	7	11	15	19	23	27	31	35	39	43	47	51	55	59	Total Inning 2	20	Defensive Shots 2	Total Points 25	Match Points Earned 5	Running Total 5

In this partial illustration of a scoresheet above, we see that Jones (a SL7) and Smith (a SL5) have been selected to play each other. The following instructions explain how to complete the scoresheet properly.

1. PLAYER INFORMATION

The winner of the lag is listed first (on top). List each player's team number, player number and name, skill level and the points he must win (from the chart) in the appropriate spaces.

2. THE "SCORE" SECTION

At the end of each game, record the "points" each player ended with.

3. THE "INNINGS" SECTION

An inning of pool means a turn per player. The player who won the lag is listed first and is the top half of the inning throughout the match. The player who lost the lag is the bottom half of the inning throughout the match. **An inning is not over and, therefore, not marked until the player who lost the lag does not legally pocket a ball or fouls.** The innings for each game are separated by a perpendicular line drawn after each game ends, creating an innings box for each game. In this innings box mark 9-on-the-Snaps (9OS) or Break-and-Runs (BR) for the game in which it occurred. See illustration for examples.

Scan to watch a video on 9-ball scorekeeping.

4. THE "DEAD BALLS" SECTION

Keep track of any balls not credited to either player (e.g., scratches, fouls, balls left on the table when the 9-ball is made). These balls should be accounted for on the scoresheet to avoid confusion.

5. "9-SNAP" AND "9-B & RUN" BLOCKS

Use the appropriate block to mark the total 9-balls pocketed on the break (9OS) and the total of all break and runs (BR) for each player.

6. THE "DEFENSIVE SHOTS" BLOCK

This is where intentionally missed shots are indicated. A Defensive Shot must be marked for a player on any shot where there is no INTENT to legally pocket a ball of his category. At the end of the match, total and circle the number of Defensive Shots for each player. If there are no Defensive Shots in a match write "No DS" in the block.

By conscientiously marking intentionally missed shots, you are not only keeping score properly, you are also helping to ensure the accuracy of the skill levels of the other players in your division. In the illustration, Jones had five Defensive Shots and Smith had two.

Note: The marking of a Defensive Shot does not affect the marking of the inning. In other words, the inning is marked and so is the Defensive Shot, if appropriate. (See **UNDERSTANDING DEFENSIVE SHOTS** in the General Rules section)

7. THE "POINTS" SECTION

Using the lines of numbers (above and below the players in each match), keep track of the balls (points) as the shooter is making them. Remember, you are keeping track of the points for both players. To avoid confusion the scorekeeper should **ANNOUNCE THE TOTAL POINTS RECORDED FOR EACH PLAYER AFTER EACH TURN.** Record the number of balls legally pocketed for each player throughout the match. **Balls 1 through 8 count as one point each, and the 9-ball counts as two.** At the end of each game, the scorekeeper should record the ball count number each player has reached in the appropriate "score" section. Ten points should be accounted for in each game, taking any dead balls into consideration. The match ended when Jones reached 55 points, the number of points required for a SL7 to win the match.

8. THE "TOTAL INNINGS" BLOCK

Total all the innings for the entire match and enter the number in this block. It is 20 in the illustration.

9. THE "TOTAL POINTS" BLOCK

At the end of the match, enter the total points scored by each player.

10. THE "MATCH POINTS EARNED" BLOCK

In each match, the players will split 20 points. How those 20 match points are split is determined by how well the losing player performed. Look at the chart on this page. In our illustration Smith is the losing player. He is a SL5 and had 25 points. Therefore, the match points earned by Smith is 5, and Jones gets 15. The least a winner can receive is 12 points and the most is 20 points.

At the end of the team match, each team's points need to be added together and the total recorded on the "total" line next to the team number by the space provided for the Team Captain's signature on the bottom of the scoresheet. Each individual match, unless forfeited, is worth 20 points and a team match is worth 100 points, so the points earned by both teams should add up to 100 points when all five matches are played.

Loser's S/L	SCORE OF MATCH								
	20-0	19-1	18-2	17-3	16-4	15-5	14-6	13-7	12-8
1	less than 3	3	4	5&6	7	8	9&10	11	12&13
2	less than 4	4&5	6&7	8	9&10	11&12	13&14	15&16	17&18
3	less than 5	5&6	7-9	10&11	12-14	15&16	17-19	20&21	22-24
4	less than 6	6-8	9-11	12-14	15-18	19-21	22-24	25-27	28-30
5	less than 7	7-10	11-14	15-18	19-22	23-26	27-29	30-33	34-37
6	less than 9	9-12	13-17	18-22	23-27	28-31	32-36	37-40	41-45
7	less than 11	11-15	16-21	22-26	27-32	33-37	38-43	44-49	50-54
8	less than 14	14-19	20-26	27-32	33-39	40-45	46-52	53-58	59-64
9	less than 18	18-24	25-31	32-38	39-46	47-53	54-60	61-67	68-74

11. THE "RUNNING TOTAL" BLOCK

Utilize the running total block to add up the match points earned block for each of the individual matches played.

Accurate and conscientious scorekeeping is the Team Captain's greatest contribution to the smooth operation of *The Equalizer*® handicap system and the prevention of sandbagging. *The Equalizer*® will work perfectly if every team keeps score properly. Anytime a player does not attempt to pocket one of his object balls it should be marked in the player's Defensive Shots block. The only way a team can get away with manipulating *The Equalizer*® handicap system is IF YOU LET THEM. Your Local League Management processes the scoresheets you submit. You improve the League and your chances of winning by playing by the rules and the spirit of the rules and by keeping score according to the book. Your cooperation will be appreciated by your teammates, your fellow members, your Local Management, and the APA.

SECTION 7

Other APA Formats

In addition to the standard adult 8-Ball and 9-Ball League, the APA sanctions additional formats such as Junior Divisions, Ladies Divisions, Masters Divisions, Doubles and 3-Person Team Divisions. These other formats may or may not be available in your area. The other APA formats are as follows:

1. JUNIOR DIVISIONS

Please read this entire manual (except the Higher Level Tournament Section), as most of it applies to Junior play. The specific exceptions relating to the Junior Divisions are as follows:

- a. **Membership Benefits** - The APA is the largest pocket billiards organization in the history of this country. As a Junior member of the APA, you will receive the best benefits available to the Junior amateur player.
Transferability - Your membership is transferable to wherever an APA sanctioned Junior Division exists. There is no transfer fee. Upon arrival at your new home, simply notify Local League Management and ask them to contact your previous League Operator to transfer your records. When you transfer to a new area, you must enter with your last skill level from your previous area. Memberships are nonrefundable and are not transferable from one person to another.
- b. **Fees** - Annual APA Membership dues are described in this manual (Section 1), except Junior members substitute \$10 for \$25 and \$5 for \$15.
- c. **Awards** - Annual Local Team Championships may be held with prizes (no cash) awarded to the winning teams.
- d. **General Rules** - All rules, policies and procedures included in this manual apply to the Junior Division, except as noted below:
 - 1) **The age limit will be 17.** No player will be allowed to participate past his 18th birthday, unless that birthday should occur in the middle of a session, in which case he would be allowed to complete the session. Although local ordinances may dictate the minimum age of any participant, the APA has no minimum age limit. Local Bylaws may allow adults, such as parents or guardians, to participate with certain restrictions. **Exception:** League areas that are restricted

to 21 for standard adult Leagues may set the age limit to 20 in Junior Divisions. Check your Local League bylaws for age requirements in your APA area.

- 2) **Team Skill Limit Rule in the Junior Division will be set at 17.** Simply refer to the rule regarding the overall skill limit rule in the Open Division and substitute a 17 wherever a 23 is indicated. A thorough reading of the overall skill limit rule (known as the **23-Rule**) in this manual will also indicate a few common sense adjustments. **In addition, no team may field more than one player whose skill level is 6 or above in any team match.**

2. LADIES DIVISIONS

Play will follow 8-Ball rules and format. All other rules, policies and procedures included in this manual apply to Ladies Divisions, except as noted below:

- a. The total of the skill levels of the three players fielded in any team match cannot exceed 13.
- b. Maximum of five players allowed on the roster.
- c. Teams may choose any three of the five team members to participate in each team match.
- d. Byes - five points are awarded to a team receiving a bye.
- e. Team Forfeits - five points are awarded to a team receiving a forfeit.
- f. Division winning teams and players are not eligible for the World Championship as a result of their participation in this format.
- g. All participants in Ladies Divisions are eligible to participate in the 8-Ball Classic.

TEAM SKILL LIMIT RULE IN LADIES DIVISION PLAY-13-RULE

The Ladies Division will follow all the rules of the *Open Division* with the following exception:

The total of the skill levels of the three players fielded in any team match cannot exceed 13.

A team playing fewer than three matches must show that it would not have exceeded 13 if the three matches had been played. If the **13-Rule** is broken, the offending team would receive zero

*3 players
fielded in any
team match
cannot
exceed 13.*

points for that League match. The non-offending team would receive all points they won plus two points for the match in which the **13-Rule** was broken and any subsequent matches.

Example: A team may play two players whose skill levels total 11 only if one of the players who is listed on the roster and did not show up is a SL2. Obviously, they are forfeiting the third individual match. If their lowest player who did not show up is a SL3, then the other two that played cannot exceed 10.

During Session Playoffs and all levels of Tournament play, the **13-Rule** is still in force. It is not permissible for a team to lead off with two SL6s with the idea of winning the first two matches and forfeiting the team match if one of them loses. **A team must show that if the team match had gone the full three individual matches they could have stayed within the 13-Rule.** It is permissible for a team to count someone who is on the roster but not present at the match site. In other words, a team may plan on using a SL2 even if she is not present at the match site. The team would have to forfeit the third match, but the advantage they gain is the right to play a higher skill level player earlier in the match and there is always the chance the player that didn't show up might have shown up.

When forming a new team, team members should exercise caution regarding the number of highly skilled players they recruit. If the team improves to where it can **no longer comply with the 13-Rule, then it must play two players whose combined skill levels do not exceed 10, and forfeit the third individual match.** No team will be allowed to add a player to the roster for **13-Rule** purposes after the **fourth** week of play without prior approval from the League Office.

Nonrated ladies playing for the first time (meaning they have not established a skill level yet) will play their first match as a SL3.

A violation of the 13-Rule has officially occurred when the rack is struck in the individual match that causes the violation. If your opponent violates the **13-Rule**, notify the opposing Team Captain, and then note the violation on your scoresheet. If the notation (protest) is not on the scoresheet when received by the League Office, it is too late to protest. Get into the habit of checking.

EXAMPLES:

Legal	Illegal
553=13	644=14
643=13	554=14
733=13	663=15

3. MASTERS DIVISIONS

Play will follow U.S. Amateur Championship rules and format. All other rules, policies and procedures included in this manual apply to Masters Divisions, except as noted below:

- a. There will be **no skill level limit.**
- b. A **maximum** of four players will be permitted on a roster; three of the four team members will participate in each team match.
- c. Each individual match will be a **race-to-7** and will include eight games of 9-Ball and five games of 8-Ball. Players will earn one point for each game won. A team can earn a maximum of 21 points per night.
- d. The winner of the lag will have choice of game (8-Ball or 9-Ball) or the break. Once the format has been chosen, the entire set of that format must be completed before moving to the next format.
- e. **Masters 9-Ball** – The player has won the game when he has legally pocketed the 9-ball without scratching.
- f. **Push Out** – On the shot immediately following a legal break during games of 9-Ball, the shooter may play a push-out (see Definitions). Any ball pocketed on a push-out does not count and is spotted.
- g. Coaching is not allowed.
- h. **Jump Cues** – The use of jump cues is allowed in Masters Division play. Be aware that even though Masters' rules allow for the use of jump cues, Local League Bylaws or Host Location "house rules" may choose to limit or strictly prohibit their use.
- i. **Masters 8-Ball** - Per U.S. Amateur Championship rules, players are allowed to call their pocket instead of marking it.
- j. **Byes** – 15 points are awarded to a team receiving a bye.
- k. **Forfeits** – An individual player match is worth five points.
- l. **Playoff Matches** are scored the same as in weekly play except a forfeited individual player match is worth seven points. In the case of a tie at the end of a team match, the tie would be broken by the number of individual matches won.

4. 3-PERSON TEAM DIVISIONS

All rules, policies and procedures included in this manual apply to 3-Person Team Divisions, except as noted below:

- a. Rosters are limited to five players, although only three players play in any team match.
- b. **Open Division** - The skill limit rule will read the same as the **23-Rule**, except the **overall skill limit will be 14** for the three players fielded in any team match.
- c. All participants in 3-Person Team Divisions **are eligible** to participate in the **8-Ball Classic and 9-Ball Shootout**.
- d. **Division winning teams** and players **are not eligible** for the **World Pool Championship** as a result of their participation in this format.

Exception: Summer and Fall Session Division Playoff winners in a 3-Person Team Division can gain eligibility, but only if:

- 1) The team has at least four players (for originality purposes) on their roster;
- 2) The team permanently converts to playing in the standard (5-Person team) 8-Ball League format for the next session; and
- 3) The team meets all other Higher Level Team Tournament eligibility requirements, i.e., they play continuously once qualified through the end of the Spring Session, they maintain four original players on their roster once qualified, etc.

5. 8-BALL DOUBLES DIVISIONS

Play will follow 8-Ball rules and format. All other rules, policies, and procedures included in this manual apply to 8-Ball Doubles Divisions, except as noted below:

- a. Teams must begin division play at a skill level of 10 or less. Teams will be allowed to advance to the event in Las Vegas if their team skill level increases to 11 or 12 by using the modified race chart. If their skill level increases to 13, players must be replaced in order to reduce the team skill level back to 10. For areas that allow three person rosters, the handicaps for the two lowest skill level players must begin at 10 or less.
- b. A **maximum** of three players will be permitted on a roster. The match will consist of two singles matches and a Doubles match (the order of play to be determined by Local League Management). If the Local League Management allows three player rosters, only two players will be

eligible for the 8-Ball Doubles Championship.

- c. The total points available in 8-Ball will be 12 (two individual matches worth up to 3 points and one Doubles match worth up to 6 points).
- d. In the 8-Ball Doubles match, the available points will be “double” that of a standard format 8-Ball match. Therefore, a “shutout” win during a Doubles match will be scored 6-0 instead of 3-0. A win “on the hill” will be scored 4-2 instead of a 2-1, etc.
- e. Byes - 8 points are awarded to a team receiving a bye.
- f. Team Forfeits - 8 points are awarded to a team receiving a forfeit. Individual forfeits will be worth 2 points in regular play and 3 points in playoffs. Doubles match forfeits will be worth 4 points in regular play and 6 points in playoffs.
- g. Division winning teams and players are not eligible for the 8-Ball World Championship as a result of their participation in this format.
- h. All participants in 8-Ball Doubles Divisions are eligible to participate in the 8-Ball Classic as long as all other score requirements are met.

For a full list of 8-Ball Doubles Championship eligibility requirements and rules, please visit poolplayers.com or contact your League Operator.

8-BALL DOUBLES “GAMES MUST WIN” CHART

Skill Level	6 or less	7	8	9	10	11	12
6 or less	2/2	2/3	2/3	2/4	2/4	2/5	2/5
7	3/2	3/3	3/3	3/4	3/4	2/4	2/5
8	3/2	3/3	3/3	3/4	3/4	3/5	3/5
9	4/2	4/3	4/3	4/4	4/4	3/4	3/5
10	4/2	4/3	4/3	4/4	4/4	3/4	3/5
11	5/2	4/2	5/3	4/3	4/3	4/4	4/5
12	5/2	5/2	5/3	5/3	5/3	5/4	5/5

6. 9-BALL DOUBLES DIVISIONS

Play will follow 9-Ball rules and format. All other rules, policies, and procedures included in this manual apply to 9-Ball Doubles Divisions, except as noted below:

- a. Teams must begin division play at a skill level of 10 or less. Teams will be allowed to advance to the event in Las Vegas if their team skill level increases to 11 or 12 by using the modified race chart. If their skill level increases to 13, players must be replaced in order to reduce the team skill

level back to 10. For areas that allow three person rosters, the handicaps for the two lowest skill level players must begin at 10 or less.

- b. A **maximum** of three players will be permitted on a roster. The match will consist of two singles matches and a Doubles match (the order of play to be determined by Local League Management). If the Local League Management allows three player rosters, only two players will be eligible for the 9-Ball Doubles Championship.
- c. The total points available in 9-Ball will be 80 (two individual matches worth 20 points and one Doubles match worth 40 points).
- d. In the 9-Ball Doubles match, the available points will be “double” that of a standard format 9-Ball match. Therefore, a “shutout” win during a Doubles match will be scored 40-0 instead of 20-0. What would normally be a 15-5 win in 9-Ball will be scored as a 30-10 win for a 9-Ball Doubles match, etc.
- e. Byes - 60 points are awarded to a team receiving a bye.
- f. Team Forfeits - 60 points are awarded to a team receiving a forfeit. Individual forfeits will be worth up to 15 points in regular play and 20 points in playoffs. Doubles match forfeits will be worth up to 40 points in regular play and 60 points in playoffs.
- g. Division winning teams and players are not eligible for the 9-Ball World Championship as a result of their participation in this format.
- h. All participants in 9-Ball Doubles Divisions are eligible to participate in the 9-Ball Shootout as long as all other score requirements are met.

For a full list of 9-Ball Doubles Championship eligibility requirements and rules, please visit poolplayers.com or contact your League Operator.

SECTION 8

Conduct During League Play

The purpose of this section is to provide you with specific guidelines concerning player conduct during League play. The APA has charged your Local League Management with the responsibility of enforcing these guidelines. League Management includes League Operators, Boards of Governors, or any other individual or committee that might pass judgments on misconduct. The guidelines contained herein deal with PHYSICAL CONTACT and VERBAL ABUSE. There is room for judgment in some areas and there is no room for judgment in other areas. The APA has cautioned League Management to strictly adhere to those areas where there is no room for judgment.

There are two kinds of action taken by League Management in these types of misconduct cases—IMMEDIATE ACTION and FOLLOW-UP ACTION. Immediate action is the action taken that immediately effects the actual results of the team match. Immediate action effects the entire team and it is recognized there are sometimes innocent individuals involved. Follow-up action is the action taken later, specifically against the individual involved in whatever incident occurred. The innocent members of the teams involved are not affected by follow-up action.

1. PHYSICAL CONTACT

Physical contact is the hostile physical contact between two players. This contact could be in the form of bumping, shoving, pushing, or hitting. Although this contact normally involves only the team members, League Management should impose the same penalty when a nonmember is involved if it is deemed the nonmember(s) involved is *with* one of the teams. *With* could mean a number of things; in general, if an offending person is deemed to be *with* the team, it would mean they came with the team or the team should have had some control over the person’s actions. *With* is a judgment.

Conduct During League Play

IMMEDIATE ACTION - If hostile physical contact occurs, **THE MATCH IS OVER!** There are only two possibilities to consider: only one team was guilty of hostile physical contact or both teams were guilty of hostile physical contact. **LEAGUE MANAGEMENT MUST EXERCISE ONE OF THE FOLLOWING TWO OPTIONS:**

- a. Only one side was involved. In this case, the offending team loses all points if it is a regular night of play on the weekly schedule, or loses the team match if it is a Session Playoff or any kind of a tournament match. The non-offending team receives 10 points (75 points in 9-Ball) in the case of a regular night of play, or advances to the next level in the event of Session Playoffs or some sort of tournament play.
- b. Both teams were guilty of hostile physical contact. In this case neither team would receive any points for the night in the case of a regular night of play on the weekly schedule, or if it is a Session Playoff or tournament play, both teams lose the match, which is the same as saying both teams are disqualified.

League Management has no alternative other than to enforce one of the above two options. When considering the above options, League Management cannot consider who started it, nor can League Management consider that the retaliation, if it occurred, was justified. The only way both teams can avoid the same penalty is for one of the teams to refuse to retaliate no matter what provocation they may have to endure.

2. VERBAL ABUSE

Verbal abuse consists of any name calling, threats, or any other language that could be considered to be harassment or could cause embarrassment to the opponent. League Management will always have to make judgments in this area. It is not considered harassment to root for your team—just do not do it while your opponent is shooting.

Conduct During League Play

IMMEDIATE ACTION - If League Management can determine the verbal abuse was entirely one-sided, then the individual match must be awarded to the non-offending player. This is the standard immediate action taken by League Management. The verbal abuse could be coming from the opponent, anyone on the opponent's team, or anyone who is *with* the opponent. It is only considered to be a one-sided situation if no one from the other side responds or retaliates in any way. League Management may call for forfeiture of the entire match if it determines the abuse and harassment put the non-offending team in an unfair competitive situation.

If both players or both teams are involved in the verbal abuse, a situation commonly referred to as a *screaming match*, then the match results may or may not be affected based upon the decision of League Management. If it is in a tournament or playoff situation, both teams could be disqualified, as it is extremely disruptive to other matches and to the tournament in general.

3. FOLLOW-UP ACTIONS

It is during follow-up action that League Management is given the opportunity to decide who started the problem and whether or not the degree of retaliation was reasonable. Follow-up action addresses the long-term issues.

It is important that those ladies and gentlemen who cannot act like ladies and gentlemen adjust their demeanor appropriately or they will be removed from the League.

League Management must take action against any members involved in physical contact violations, no matter how remotely League related they are. It is not acceptable for a couple of members to take their fight outside, or to agree to meet and fight it out at a later date. If, indeed, they do fight at a later date and League Management determines it was as a result of League play, then League Management must take action. This action would be in the form of follow-up action. A fight that occurs outside, but during League time, will be considered to be the same as one that occurred inside. If a player threatens to wait outside until the match is over, League Management should rule that the entire team match is

forfeited. How can a player and his teammates possibly concentrate on finishing a match if they feel they will be facing a brawl later on? In other words, a threat could be treated as *physical contact* in terms of *immediate action*. There is certainly room for a lot of judgment in this area.

Follow-up action by League Management results in penalties such as probation, suspension and permanent termination of League and APA membership. The latitude of these penalties is left mainly up to League Management, but the following guidelines should be observed:

- a. To any person who starts a fight or brawl—permanent termination of League and APA membership.
- b. To a person who gets into a fight or a brawl defending himself—a minimum one month suspension if first offense, and much longer if otherwise.
- c. To someone who consistently uses foul or intimidating language—six month suspension, and longer for a second offense.
- d. To someone who uses lesser degrees of verbal abuse—probation and suspension as deemed appropriate.

It is important that all team members are aware of these conduct guidelines. Your team should consider dropping anyone from your roster who does not agree with them. Any individual or team suspended from League play will immediately lose certain other membership privileges, including eligibility for APA tournaments, until and unless the suspension is lifted. Once a player is suspended that player will not have the privilege to coach their team, keep score or put up players, until their suspension has been lifted. Breaking this rule may result in a much lengthier suspension. You joined this League to have a good time and so did the vast majority of other members. Every member has the right to be treated in a sportsmanlike manner, and members who display offensive behavior will not be tolerated.

Every member has the right to be treated in a sportsmanlike manner.

SECTION 9

Higher Level Tournament Eligibility Information & Rules

As of the printing of this manual, the APA offers two national 8-Ball championships—the basic 5-Person team championship and the singles championship. The APA also offers two national 9-Ball championships—the basic 5-Person Team Championship and the Singles Championship. In the future, the APA may offer championships in other formats. These championships include any combination of local, regional and/or Championship events, known collectively as *Higher Level Tournaments*.

A. AREA ELIGIBILITY

In order to protect the overall integrity of the championships, the APA reserves the right to declare an area ineligible to participate in the championships if Local League Management does not accurately follow procedures outlined in the APA League Operations Manual.

A Local League area must also meet certain minimum team counts in order to participate in the World Championships. Once the minimums have been met, more teams participating in your area will mean more teams advancing from your area to the World Championships. Theoretically, it is just as easy to advance from a territory with 500 teams as it is to advance from a territory with 100 teams.

The minimum team counts to become an eligible area are as follows:

1. WORLD CHAMPIONSHIPS

- a. **8-Ball** - If your League area has 20 or more standard 8-Ball Teams participating in the final (Spring) session of the League year, then your area qualifies and may advance at least one team. Areas with 12 to 19 teams will play off with another area that has 12 to 19 teams from which one team will advance. Areas with 11 or fewer

Tournament Information & Rules

teams are not eligible to advance a team. Only standard 5-Person adult 8-Ball teams will count towards the minimum.

- b. **9-Ball** - If your League area has 14 or more standard 9-Ball Teams participating in the final (Spring) session of the League year, then your area qualifies and may advance at least one team. Areas with eight to 13 teams will play off with another area that has eight to 13 teams from which one team will advance. Areas with seven or fewer 9-Ball teams are not eligible to advance a team. Only standard 5-Person adult 9-Ball teams will count towards the minimum.

2. POOLPLAYER CHAMPIONSHIPS

There must be 12 or more 8-Ball teams in an area in order to qualify players for the 8-Ball Classic. There must be 12 or more 9-Ball teams in an area in order to qualify players for the 9-Ball Shootout. Only standard 5-Person adult 8-Ball or 9-Ball teams count towards the minimum. Other 8-Ball and 9-Ball format teams do not count.

B. WORLD CHAMPIONSHIPS

The APA World Pool Championships are the largest and richest amateur championships in the sport. Unlike other leagues that either do not have a world championship, or who play by different rules in their championship, this League plays by the same game rules, allows only eligible members to play, allows no all-star teams and uses and updates skill levels. In general, there are few differences from regular League play. Please anticipate receiving a Team Captain's packet prior to the tournament.

The packet will contain some specific information, such as: referees, if present; scorekeepers, if present; special rules and procedures for the tournament, if needed; and other applicable subjects. This section deals with issues, such as, how to maintain eligibility once gained, identification requirements, team certification procedures, disqualification procedures and more.

Tournament Information & Rules

1. GENERAL DESCRIPTION

A general description of the World Championships can be found in Section 1 of this manual.

2. HOW TO BECOME AN ELIGIBLE TEAM

Gain eligibility to the Local Level of the World Championships simply by winning a division title or by finishing Playoffs immediately behind a team that is already eligible. One team per division per session becomes eligible, so three teams per division per League year (if the division played all three sessions) become eligible. **THE ONLY WAY A TEAM CAN GAIN ELIGIBILITY TO THE CHAMPIONSHIPS IS BY THEIR PERFORMANCE IN REGULAR WEEKLY PLAY.** In large League areas there may be Tri-Annuals, Qualifier Cups, etc., to determine who advances. If this applies to your area, it will be explained in the Local Bylaws.

3. ELIGIBILITY CAN BE LOST

Once eligible, make sure you become familiar with all the rules in this section in order to avoid losing eligibility. If your team should lose its eligibility, make sure you notify your Local League Office. They will take you off the list, which gives you an opportunity to win your eligibility again. Without notification, the League Office might pass eligibility on to the team that finishes behind you under the assumption that your team is still eligible. Once that's done, it's too late.

4. YOU MUST REMAIN A CURRENT APA MEMBER

Lapsed APA membership means lapsed eligibility. If any of your teammates are not available at renewal time, you must pay for them or they will be *dropped* from the roster and will become ineligible. Once *dropped*, they will not be allowed to pay later and be back on the team except as a new member, meaning they have to join by the fourth week and play four times in the new session. **CAUTION**—Notify the League Operator immediately if a player is accidentally dropped from your roster. Otherwise, it will be too late.

Tournament Information & Rules

5. YOUR TEAM MUST MAINTAIN ACTIVE TEAM STATUS

Every eligible team must play the Spring Session to retain eligibility. If your team qualified in the Summer Session, then you must sign up again and play both the Fall and Spring Sessions in the League area in which you qualified. A team that qualifies in the Fall must continue on and play in the Spring in the League area in which you qualified.

6. 50% RULE FOR QUALIFIED TEAMS

Summer Session teams that qualify for the Local Team Championship must finish in the top half of their division in the subsequent Fall and Spring Sessions of the current League year. Fall Session teams that qualify for the Local Team Championship must finish in the top half of their division in the subsequent Spring Session of the current League year. Teams that do not finish in the top half of their division in the session(s) following qualification are subject to heavy scrutiny of their handicaps and/or loss of eligibility.

7. YOUR SPRING ROSTER IS YOUR HIGHER LEVEL TOURNAMENT ROSTER

Your actual Spring roster will be the roster you must play with when you enter the World Championship. Your Local Team Championship is part of the World Championship. You cannot go back and re-sign a player who used to play with you in the Fall or the previous Summer, even if that player was on your team when you gained your eligibility. There will be no exceptions to this rule. If you are down to only four available players on your roster, you will have to go to the Championship with only four players. Make sure each player on your team has met the individual player requirements. Ineligible players will be removed from your roster and are ineligible to participate. Ineligible players will not count for **23-Rule** purposes. All roster changes for qualified teams must be made prior to the team submitting their week four scoresheets. **Once the fourth week of the Spring Session has passed, the rosters of all eligible teams are frozen. No one may be dropped or added.**

The Spring Session roster of eligible teams cannot be changed.

Tournament Information & Rules

8. THE SKILL LEVEL YOU MUST PLAY WITH

Every player must enter Higher Level Tournaments (Local Level and up) with the highest session-ending handicap he had from the time his team became qualified to his Spring Session-ending handicap. Session-ending handicaps are based on at least 10 actual League match scores in the format in which the player is advancing.

9. NUMBER OF SCORES YOUR HANDICAP MUST BE BASED ON

In order to go to Higher Level Tournaments, a player must have a skill level based on at least 10 actual League match scores in the format in which he is advancing. The 10 scores must be attained by the end of the Spring Session in the League year corresponding to the Team Championship in which the player is advancing.

10. ADDING A NEW PLAYER TO A QUALIFIED TEAM IN THE SPRING SESSION

Any player being added to a team in the Spring Session that is qualified for the Local Team Championship must have a skill level based on at least 20 scores. If the player has fewer than 20 scores, that player must be approved by your League Operator prior to being added to the roster.

11. NUMBER OF TIMES YOU MUST HAVE PLAYED WITH YOUR TEAM

In order to be considered a full-fledged member of a team and **eligible to go to the World Championship with that team**, a player **must have played at least four times with the team in the Spring Session**. Local bylaws may stipulate additional eligibility requirements.

12. SKILL LEVELS UPDATED

Individual skill levels may be adjusted by standard updating, by tournament committee judgments, or by the APA National Handicap Review Committee prior to and during all levels of Higher Level Tournament play.

13. ORIGINAL PLAYERS

Original players (see **ORIGINALITY** described in Definitions) are those players who were on a team roster when the team gained its eligibility. When a team gains eligibility, each player on the roster gains personal eligibility and has *originality*. If a player quits an eligible team and later rejoins it according to the rules, he still has originality.

Example: Ted's team wins the Summer Session. Ted drops off the team in the Fall Session, but then rejoins it again in the Spring Session and plays four times. He is still *original*.

14. TEAMS MUST RETAIN FOUR "ORIGINAL" MEMBERS

In order for a team to retain eligibility for Higher Level Tournaments, at least four members must *be original* members. A team that gains eligibility in the Summer Session must retain four original members in the Fall and Spring Sessions. *Originality* is established by:

- a. Being on a team when it became eligible; or
- b. Joining an eligible team that finishes first (**wins the division title**).

Example: A team that became eligible in the Fall Session begins the Spring Session with only three original members. It wins the outright 1st Place division title making everyone on the roster *original*. So a team that lost eligibility because it did not have enough original players and forgot to notify the League Office would only become eligible again by winning the division title in the Spring Session; whereas, if notification had been given, it might also have regained eligibility by finishing second behind a team already eligible.

15. 23-RULE IN EFFECT

The **23-Rule** will be enforced. No team will be allowed to add a player to the roster for **23-Rule** purposes. Teams that cannot meet the **23-Rule** will not be disqualified based on their inability to meet the **23-Rule**. Instead, they will be allowed to play four players whose combined skill levels do not exceed 19, when the sum of the lowest five players listed on the roster exceeds 23, and forfeit the fifth match.

Just as in regular Session Playoffs, you must show that the players listed on your roster could have made up a legal team if the match had gone the full five matches. If the lowest five players listed on your 8-Ball division roster do exceed 23, your team will be playing with four players whose combined skill levels do not exceed 19. Obviously, if a fifth match were required, your team would have to forfeit.

16. THE APA HAS THE OPTION TO DISQUALIFY ANY TEAM

In order to conduct a fair and equal tournament for all APA players, APA must ensure that all participants are playing at skill levels that are not below their true ability. Handicap manipulation compromises the fairness and integrity of tournament play and cannot be tolerated. Accordingly, APA may disqualify any team if, in APA's sole judgment and absolute discretion, one or more of its players are deemed by APA to be playing at a skill level below their true ability. The determination of whether a player is playing at a skill level below his or her true ability is necessarily subjective; APA is the sole judge of a player's ability and may make such a determination in its absolute judgment and discretion.

Skill levels of all team members should reflect their true ability.

Disqualification will mean forfeiture of all titles, awards, prize money, and a minimum 2-year suspension from the League.

17. COACHING RESTRICTIONS

There will be some coaching restrictions. Ineligible players cannot coach or participate in group consensus.

18. NO MORE THAN EIGHT PLAYERS PER ROSTER

A maximum of eight players will be accepted at Higher Level Tournaments. All eight players on the Championship roster must be the same players who were on the local Spring Session roster.

19. COMMON PLAYERS AT THE WORLD LEVEL OF THE CHAMPIONSHIPS

A common player is defined as a player on more than one team. A team may have up to two players that are common with another team in the same format at the World Pool Championships. A player may be common on up to two teams in each format at the World Pool Championships. This means you may qualify on up to two 8-Ball teams and two 9-Ball teams. If you qualify on more than two teams in any format you must choose which team rosters you will stay on prior to entering the World Pool Championships.

Note: Matches will not be held up for players who are participating on multiple teams.

20. IDENTIFICATION REQUIREMENTS

ALL PLAYERS MUST PRESENT CURRENT CERTIFIED POSITIVE PICTURE IDENTIFICATION IN THE FORM OF A STATE I.D. FROM THEIR STATE OR PROVINCE OF RESIDENCE, A MILITARY I.D. OR A PASSPORT at Higher Level Tournaments. If you do not have a picture I.D. then you must obtain one through the state you live in prior to entering the event. NO EXCEPTIONS. If you cannot provide positive picture I.D. you will not be allowed to play.

All players must present picture identification.

21. DRESS CODE

Proper attire must be worn at all times in and around the tournament site. The Tournament Director shall determine what is proper attire, and is responsible for requiring the change of improper attire on the part of any contestant. The dress code will be enforced.

22. TEAM NAMES AND TEAM SHIRTS

Team names and shirts are customary and recommended for all League play, especially Higher Level Tournaments. All teams are urged to choose a team name and design a team shirt that will create public respect for their team

and the League. Team names and shirts that are deemed to bring discredit to the League will not be allowed at Higher Level Tournaments. For more information on team names, please refer to poolplayers.com.

23. SKILL LEVEL RESTRICTIONS

Players who have competed in previous Higher Level Tournaments will not be allowed to enter subsequent Higher Level Tournaments with lower skill levels unless an appeal has previously been granted. The APA maintains a record of all past tournament participants and makes updated lists available to Local Management for implementation on the Local Level.

24. INITIAL CERTIFICATION PROCEDURES BY LOCAL LEAGUE MANAGEMENT

Your Local League Management has most of the Spring Session to review the rosters of the teams from your area who are getting ready to enter the Local Level of the World Championships. The Spring Session is over by the end of May and the APA has asked League Operators to conduct the Local Level of the World Championships no later than mid-June. Please expect your League Operator/Board of Governors to review the skill levels of every player on every team before the Local Team Championship begins. Such a review will decrease the chances of disqualification at a later time due to handicaps being too low.

25. TEAM CERTIFICATION PACKET

The League Operator will submit to the APA a certification packet for all teams qualifying for the World Level. Teams will not be allowed to compete without a certification packet. Each player on the team contributes to this certification packet by signing the Team Certification Statement. Each certification packet must contain:

- a. Each player's handicap record.
- b. All original scoresheets of the matches the team was involved in during the session it won and all subsequent sessions.
- c. All original scoresheets of the matches the team was involved in during the Local Team Championship.

Tournament Information & Rules

- d. A certification statement signed by the League Operator.
- e. A Team Certification Statement signed by every member of the team. Each member of the team is certifying on this form that, among other things, the skill levels on the team roster reflect the true ability of each of the players.
- f. The team entry fee.
- g. Team Registration Form.

26. TRAVEL ASSISTANCE POLICY

APA's policy is that the Local League awards travel assistance to the team advancing from the Local Team Championship to the APA World Championships held each August in Las Vegas, Nevada. The travel assistance fund paid by the Local League is not prize money and should not be considered prize money.

Travel assistance is to offset some or all the expenses incurred by the team in traveling to and participating in the World Championships. The travel assistance fund is to be split equitably among the team members going to Las Vegas. Proof of travel arrangements is required.

World Championship qualified teams that do not intend to participate in the Event are not eligible to receive Travel Assistance; in this situation, a runner-up team will now be eligible to receive Travel Assistance and compete in the World Championships. In addition, if one or more players on a qualified team choose not to attend the Event, those team members will not be eligible to share in the Travel Assistance and awards.

27. APA IS HIGHEST AUTHORITY

To preserve the integrity of the Higher Level Tournament structure, the APA reserves the right to disqualify any player and/or team:

- a. Whose certification packet appears to have been altered or contains irregularities that might give that player or team an unfair advantage; or
- b. Where fraudulent circumstances of any nature are found to exist; or

Tournament Information & Rules

- c. Whose sportsmanship or conduct is deemed by the APA to potentially bring discredit upon the tournament, the League or the sport.

APA is the highest authority concerning all tournament rulings. Its decisions are final.

C. POOLPLAYER CHAMPIONSHIPS

Since this manual is designed for team play, the 8-Ball Classic and 9-Ball Shootout will not be covered in any detail here. All of the rules pertaining to these singles events are printed on the Local Qualifier Board for all entrants to read.

In general, you must be a current APA member to enter and maintain membership throughout the course of the event(s). To enter, you must be on the roster of an active team in the format in which you are participating and remain so throughout the course of the event. You must be a member in good standing. Each League area must also meet certain eligibility requirements in order to advance members to the singles events. For more details on these requirements, please contact your League Operator.

You enter with your skill level based on at least 10 actual League match scores in the format in which you are participating, all occurring within the last two years, and play by the same game rules you follow during team play. All the rules are printed on the Local Qualifier Board at the location where you choose to enter.

Buying boards (meaning the Local Qualifier did not actually take place) is strictly against the rules. Violators will face suspension or termination of membership. Since this could affect your team, make sure your teammates understand the need for following the rules.

Note: For all APA Championships, the APA is the sole judge of a player's ability and may, at any time, raise a player's skill level if the APA believes he is not playing up to his true ability.

BALL-IN-HAND: *Ball-in-hand* is the term used to describe the advantage granted to your opponent when you scratch or otherwise foul. Your opponent may choose where to place the cue ball on the table before shooting any of his category of balls.

BANK SHOT: A *bank shot* is when a player drives the object ball to the cushion in the course of making the shot.

BREAK (Break Shot): Refers to the first shot of the game.

BRIDGE: Refers to the hand that holds and guides the cue shaft, also the type of hold. Also refers to a cue-like stick with a specially shaped plate mounted on the end or other such device that serves as a support for the cue when the shooter cannot reach the spot where he would normally place his bridge hand.

BYE: A *bye* is a missing team on a schedule. Schedules are always set up to accommodate an even number of teams. When there is an odd number of teams in a division, there will be a bye. For example, a 9-team division will be playing a 10-team schedule with one bye. If your team is scheduled to *play* a bye, that means you do not have a match on that occasion. A bye is a missing team or, in a singles event, individual.

CAROM: A term describing the glancing of one ball off another.

DEFENSIVE SHOTS: A *Defensive Shot* is a shot where the shooter deliberately misses so as to pass his turn at the table on to his opponent. It is a shot where there is no **intent** on the part of the shooter to pocket a ball of his category.

Intent is the key word. (See **UNDERSTANDING DEFENSIVE SHOTS** in the General Rules section, and also see **SAFETY** in the Definitions section.)

DOUBLE HIT: A double hit is an illegal shot involving the tip of the cue stick coming into contact with the cue ball twice during the execution of a single shot. This foul may occur through double clutching the cue ball, or in situations where the cue ball is *nearly frozen* to the object ball or rail. In the latter example, the double hit often occurs due to the difficulty in moving the stick away from the shot quickly enough to avoid the cue ball rebounding back into the stick. In general, you can lessen your chances of committing this type of foul by hitting the cue ball into the object ball or rail at an angle, or by elevating the butt of your cue about 30 degrees. This automatically cuts down the length of the follow through which is the principal cause of a double hit.

DRAW: A method of stroking that causes the cue ball to spin backwards after contact with an object ball. The cue's tip must contact the cue ball below center to cause the draw.

ENGLISH: A method of stroking that causes the cue ball to react to the right or left after contact with an object ball or cushion.

ESTABLISHED SKILL LEVEL: Once a player has received at least 10 scores in a format.

FOLLOW: A method of stroking that causes the cue ball to *follow* in the same direction as the object ball when struck.

FOLLOW THROUGH: An important and desirable motion of the cue carrying through the area previously occupied by the cue ball.

FOOT OF TABLE: The end not marked with the maker's name plate, or on tables with ball returns, the end to which the balls return (see Diagram of Table).

FOOT SPOT: A spot placed in the exact center of an imaginary line drawn across the pool table between the second diamonds from the foot rail (see Diagram of Table).

FOUL: An illegal shot resulting in loss of turn at the table and *ball-in-hand* for the opponent.

FROZEN BALL: A *frozen ball* is a ball that is touching either another ball or a rail. If it is touching another ball, it is frozen on that ball; if it is touching a rail, it is frozen on the rail.

HEAD OF TABLE: Opposite of the foot (see Diagram of Table).

HEAD STRING: The imaginary line drawn across the pool table between the second diamonds from the head rail (see Diagram of Table).

HILL-HILL MATCH: The point in match play where both players need only one more game to win.

INNING: A completed cycle that gives both players a turn at the table.

JUMP SHOT: A *jump shot* is when the cue ball is struck with the cue tip in a downward fashion for the purpose of elevating or jumping the cue ball over an impeding object ball to achieve a legal hit. It is illegal and, therefore, a foul to jump a cue ball over another ball by cuing it up in the air (scooping) on purpose. See a local professional for more information concerning how to jump the cue ball legally. Although League rules do allow jump shots, there may be Local Bylaws or individual “House Rules” in many locations limiting or prohibiting jump shots.

KICK SHOT: A *kick shot* is when a player drives the cue ball to a cushion before contacting the object ball.

LAG: Method used to start a match. Players simultaneously shoot a ball from behind the head string, banking it off the foot rail and back to the head of the table. Failure to strike the foot rail, or striking the side rails or any pocket results in loss of the lag. The closest ball to the head rail wins. It is permissible to strike the head rail. If the lagged balls make contact with each other or both players fail to strike the foot rail, re-lag.

LOCAL BYLAWS: *Local Bylaws* are additional rules, policies, and procedures unique to an area. They are designed to cover local situations, such as exactly how the scoresheets are picked up and delivered, local League times and the like. Local Bylaws also might cover specific situations, such as, how Tri-Cups or Qualifier Cups affect advancement into Higher Level Tournaments. Local Bylaws may also contradict portions of this manual, especially in the General Rules Section, but only with the approval of the APA. Local Bylaws are normally written by the League Operator and the Board of Governors.

MASSÉ SHOT: A *massé* shot is when a player attempts to curve the cue ball around a ball in order to strike an intended ball. A *massé* is accomplished by raising the butt end of the cue and using either right or left *english*. Even raising the butt end of the cue a little and using right or left *english* will cause the cue ball to curve a little. The more the cue is raised, the more the cue ball will curve. Extreme *massé* shots, improperly executed, can cause damage to pocket billiard equipment. Although League rules do allow *massé* shots, there may be Local Bylaws or individual “House Rules” in many locations limiting or prohibiting *massé* shots.

MISCUE: A *miscue* occurs when the cue’s tip does not hit the cue ball squarely enough and glances off without driving the cue ball on its desired course, often caused by not enough chalk on the tip, an improperly shaped tip or an attempt at too much English. Miscuing is not illegal unless the shooter is deliberately miscuing to scoop the cue ball over a ball that is in the shooter’s way. Sometimes a miscue may result in a foul because the cue ball was struck twice or struck the 8-ball or one of the opponent’s balls first. It wasn’t the miscue that was a foul, however, it was the fact that the cue ball was struck twice or struck the wrong category of balls that became the foul.

OBJECT BALL: The *object ball* is the ball you are trying to hit, or any other ball of your category. The cue ball is not an object ball.

ON THE HILL: Describes a player who needs to win only one more game to win their individual match

ORIGINALITY: *Originality* in this League system refers to original members. Original members are those members who were on a team when it gained eligibility to the APA World Pool Championships or won a division title. (Winning a division title means winning one of the Division Playoffs held at the end of each session.) Original members are said to have *originality*. An original member can lose originality if he quits a team, but can gain originality back by rejoining that same team in accordance with other rules in this manual.

PUSH-OUT: The push-out was developed to take some of the luck out of pool. A player could *protect* his turn with a push-out. Although push-outs have been used more often in the past, currently, push-outs can only be used immediately after the break by the breaker if he pocketed a ball on the break, or by the incoming player if no balls were pocketed on the break. A player can elect to push-out if he doesn’t like the shot he is faced with. Pushing-out involves announcing the intent to push-out, and then shooting the cue ball to a new position. The shooter doesn’t need to satisfy the *legal shot* rule (driving a ball to a rail after a legal hit).

The shooter’s opponent then has the option to shoot from the new position or tell the shooter to take the shot. Normal game rules apply from that point on. Push-outs are fairly standard in pro events, in the APA Masters format and the U.S. Amateur Championships (conducted by the APA); however, APA rules for all handicapped competition does not allow push-outs because they give the more highly skilled player a big advantage, for obvious reasons.

PUSH SHOTS: A *push shot* involves a situation where the cue ball is frozen to the object ball. The problem faced by the shooter is to keep from *pushing* or keeping the tip of the cue on the cue ball. It looks bad and is generally thought of as illegal. Push shots are controversial. Push shots will not be called in this amateur League. Even the professional players cannot agree about what is and isn't a push shot. In general, you can lessen your chances of being accused of shooting a push shot by hitting the cue ball into the object ball at an angle, or by elevating the butt of your cue about 30 degrees. This automatically cuts down the length of the follow through which is the principal cause of a push shot. Players who repeatedly guide the cue ball with force through object balls that are *frozen* to the cue ball, using a level cue and long follow through, may be subject to a sportsmanship penalty.

REGULAR SHOOTING CUE: Any standard pool cue designed to shoot the majority of shots in a game of pool.

SAFETY: A defensive action taken when a player either has no "makeable" or "high percentage" shot or chooses to leave his opponent in a difficult situation. It is a legal shot and is not considered to be *dirty pool*. A safety must still conform with the rule concerning hitting the *correct* ball first and striking a rail afterwards. If a *correct* ball is accidentally pocketed while playing safe, the shooter must continue to shoot. Players with integrity call their safeties. (See **UNDERSTANDING DEFENSIVE SHOTS** in the General Rules section.)

SANDBAGGING: Sandbagging, in any handicapped sport, is the unethical practice of deliberately playing below your ability in order to alter your handicap so it does not reflect your true ability. There are a number of anti-sandbagging measures in this League system. You can help by properly marking Defensive Shots during regular weekly play. (See **UNDERSTANDING DEFENSIVE SHOTS** in the General Rules section.)

SCRATCH: Pocketing of the cue ball or driving the cue ball off the playing surface and onto the floor.

SESSION: In the APA League, session refers to the season in which League play took place. There are three sessions in each League Year—Summer Session, Fall Session and Spring Session.

SPECIALTY CUES: Cues specially tailored to perform specific shots. These include, but are not limited to, jump cues, break cues, and jump-break cues (combination of jump cues and break cues).

Previous Event Winners

1981-1986

National Team Champions

- 1981 Open 8-Ball Division: The Place II – St. Louis, MO
1982 Open 8-Ball Division: Jimmy's Bar – Sandusky, OH
